Dear Adrian,

Thank you for the consultation. I have gone through the proposals and supporting documentation and I don't think there is any requirement for any archaeological input as much of the work involves alteration to relatively recent partitions etc which were installed as part of an (historically) recent refurbishment of the wing while the insertion of pods for en-suite facilities will have minimum impact. The photographic record and plans will, I assume, be added to the college archives which will comprise a record of the works.

Regards
