Subject: RE: Planning Application at Cuttock Clough Barn for a 12m high, 2 0kw Wind Turbine

Graeme,

We are concerned that the information is incomplete and in his comments attached Steve Brereton points out the limited range of viewpoints for the photos (not proper photomontages) and where information is lacking that makes it difficult for us to express a view that can be backed up. He is going on site tomorrow but we are concerned that it would be difficult if not impossible to make a proper judgement on the basis of this partial information from the applicant. If the applicant's agent can provide the missing info then we can make progress.

Regards,

Don
