1st November 2007

Dear Mr. Thorpe

Re: Planning Applications

The Parish Council is in receipt of the following planning application, after discussion the following points were made

3/2007/0895 Steel portal frame livestock building Halstead Farm West Bradford (No Objections)

GT
3/2007/0945 Installation of 20kw domestic wind powered generator on 12metre mast
West Bradford parish council has no objection in principle to wind generated electricity, providing the sighting of the mast and turbine are unobtrusively positioned and sympathetic with their surroundings

With regards to this application the council feel that no consideration has been given to other residents within the area

West Bradford parish council therefore propose that the application should be rejected on the grounds of the detrimental effect it would have on other properties, and the area in general

We also propose that the applicant be advised to re-apply for a domestic wind powered electricity generator re-sighting the structure adjacent to his own property,

The council would then reassess the application

For and on behalf of West Bradford Parish Council

Yours sincerely

David Sharp
Clerk to the Parish
