Garage Roof
(as existing)

Existing roof to be stripped & re-covered using existing slates on new Tanalised timber battens. Thermal insulation provided to underside of rafters complete with vapour-permeable underlay

Existing walls lined-out with DELTA Membrane & thermal laminate to achieve requisite level of thermal insulation (reversible construction detail)

Infill removed to existing built-up opening to form secondary means of escape in the event of fire (Building Regulations 2000, Approved Document B - Fire Safety).

Kitchen Dining Roof

Conservation Rooflights Type CR-5 - fitted flush to slating - by The Rooflight Company, Shipton-under-Wychwood OX7 6XU - tel. 01993 833108

Bedroom

Line of 152 x 152mm x 23kg/m UC to support purlins

Line of 152 x 152mm x 23kg/m UC to support purlins
