| Proposal                | 1 fascia sign; 4 flags (2 either side of the entrance clock); 2 hoardings either side of site set back from the road and 7 Triangular signs internal on the light posts.                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                        |                                 |
| Parish Council comments | <p>Object to the proposal on the following grounds:-</p> <p>The abundance of signs and flags is excessive and out of keeping with the rural nature of the area.</p> <p>The flags and hoardings would obstruct the view along the Road and are overly large They would cause a distraction to passing drivers, at the junctions of both Simonstone Lane and the entrance points of adjacent car parks</p> <p>The internal triangular signs would be excessive in number and create a precedent</p> <p>They would cause a distraction to passers-by and road users.</p> <p>There is no objection to the back lit sign at the entrance</p> |                        |                                 |

Yours faithfully

I Roger Hirst  
Clerk to the Parish Council
