Dear Sirs

DIRECTOR OF
DEVELOPMENT

14 AUG 2009

FOR THE
ATTENTION OF

312009/0569P - Erection of 11 No. Lightpoles (columns)
at Carr Hill Farm, Whalley Rd, Wiltshire

Wiltshire Parish Council Strongly Objects to
the application to erect 11 No Spot Lights erected
on 6m (20') columns in an area of Green Belt.

Whilst the maximum projected area as given
is only 0.121^2m the proposal to project 6000m
into a restricted area will intensify the
brightness.

The Institute of Lightpoles Engineers recommends
low district brightness area for rural areas.

The local Authority should confirm that
the Lightpole scheme as proposed is a
nuisance under the clean neighbourhoods
& Environment Act 2005.

If approved the scheme will link
the suburban area of Longmoor & Wiltshire
in an undesirable ribbon of lightpoles.
This application must be rejected.
It will impact upon the ecology.

and wildlife of the area. It will produce a glare when the brightness of the light sources interferes with the ability to view the whole area. The proposal would be acceptable to illuminate an industrial site in a commercial area ~~of~~ but not in a rural area

cb 3/2009/0538 Proposed single storey
