Dear Planning,

Bashall Eaves and Mitton Parish Council has the following comments :

3/2009/0652 Agricultural Building : Edisford Bridge

Although this is a large structure we have no objections in principle. It does not seem to be too visible from Low Moor. We were somewhat puzzled by the description as "livestock housing and storage" since we could not see any storage areas on the plans

3/2009/0681 Ponds and Footpath : Bashall Town

No objections in principle, but we could not see the purpose of the footpath disgorging at the busy three-way road junction at its lower end. There is already a farm track but we could not see why pedestrians would wish to leave the Bashall Barn site this way. We trust extra signage is not planned.

Ian M Smith (Parish Clerk)
