Subject: 3/2011/0375 and several associated plans

Dear Planning,

The Parish Council visited the site on 11/06/2011 We point out the context that planning was only granted for work units to replace the original Backridge Farm on the grounds that farming there was untenable. Now we are told that land has been sold and farming is now possible again. As a Parish Council we have to be concerned at planning creep which seems to be becoming more frequent.

As to the proposal itself the proposed farm buildings are in a hollow and in our opinion do not constitute an unwelcome intrusion. Adjacent woodland must be retained. We trust this application will not be followed by one for dwellings on this site.

Ian Smith(Parish Clerk, Bashall Eaves and Mitton)

ps On visiting the site we found the caravans stored at Cheetalls Farm to be very intrusive and request Planning to seek their removal
