Householder Application for Planning Permission for works or extension to a dwelling. Town and Country Planning Act 1990

You can complete and submit this form electronically via the Planning Portal by visiting www.planningportal.gov.uk/apply

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Please complete using block capitals and black ink.

It is important that you read the accompanying guidance notes as incorrect completion will delay the processing of your application.

1. Applicant Name and Address

Title:	MISS	First name:	JULIE
Last name:	ROBINSON		
Company (optional):			
Unit:		House number:	3
		House suffix:	
House name:			
Address 1:	ARLEY RISE		
Address 2:			
Address 3:			
Town:	MELLOR		
County:	LANCS		
Country:	ENGLAND		
Postcode:	BS2 7EU		

2. Agent Name and Address

Title:	MR	First name:	D
Last name:	HOLT		
Company (optional):			
Unit:		House number:	2
		House suffix:	
House name:			
Address 1:	BRANTWOOD		
Address 2:			
Address 3:			
Town:	CLAYTON LE MOORS ACCRINGTON		
County:	LANCS		
Country:	ENGLAND		
Postcode:	BS2 5QR		

3. Description of Proposed Works

Please describe the proposed works:

REAR & SIDE EXTENSION
RAISE ROOF 1.5m to PROVIDE
ROOMS IN ROOF SPACE.

3. Description of Proposed Works (continued)

320110432 P

Has the work already started? ☐ Yes ☒ No

If Yes, please state when the work was started (DD/MM/YYYY):

(date must be pre-application submission)

Has the work already been completed? ☐ Yes ☒ No

If Yes, please state when the work was completed (DD/MM/YYYY):

(date must be pre-application submission)

4. Site Address Details

Please provide the full postal address of the application site.

Unit: House number: House suffix:

House name:

Address 1:

Address 2:

Address 3:

Town:

County:

Postcode (optional):

5. Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicle access proposed to or from the public highway? ☐ Yes ☒ No

Is a new or altered pedestrian access proposed to or from the public highway? ☐ Yes ☒ No

Do the proposals require any diversions, extinguishments and/or creation of public rights of way? ☐ Yes ☒ No

If Yes to any questions, please show details on your plans or drawings and state the reference number(s) of the plan(s)/drawing(s):

6. Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application? ☐ Yes ☒ No

If Yes, please complete the following information about the advice you were given. (This will help the authority to deal with this application more efficiently)

Please tick if the full contact details are not known, and then complete as much possible: ☐

Officer name:

Reference:

Date (DD MM YYYY):
(must be pre-application submission)

Details of the pre-application advice received:

7. Trees and Hedges

Are there any trees or hedges on your own property or on adjoining properties which are within falling distance of your proposed development? ☐ Yes ☒ No

If Yes, please mark their position on a scaled plan and state the reference number of any plans or drawings:

Will any trees or hedges need to be removed or pruned in order to carry out your proposal? ☐ Yes ☒ No

If Yes, please show on your plans which trees by giving them numbers e.g. T1, T2 etc, state the reference number of the plan(s)/drawing(s) and indicate the scale.

8. Parking

Will the proposed works affect existing car parking arrangements? ☐ Yes ☒ No

If Yes, please describe:

9. Authority Employee / Member

With respect to the Authority, I am:

(a) a member of staff

(b) an elected member

(c) related to a member of staff

(d) related to an elected member

Do any of these statements apply to you?

☐ Yes ☒ No

If Yes, please provide details of the name, relationship and role

10. Materials

If applicable, please state what materials are to be used externally. Include type, colour and name for each material:

	Existing (where applicable)	Proposed	Not applicable	Don't Know
Walls	Facing Bricks	Facing Bricks	☐	☐
Roof	Concrete Tiles	Concrete Tiles	☐	☐
Windows	Timber	White U.P.V.C.	☐	☐
Doors	"	"	☐	☐
Boundary treatments (e.g. fences, walls)			☒	☐
Vehicle access and hard-standing			☒	☐
Lighting			☒	☐
Others (please specify)			☒	☐

Are you supplying additional information on submitted plan(s)/drawing(s)/design and access statement?

☒ Yes

☐ No

If Yes, please state references for the plan(s)/drawing(s)/design and access statement:

3 Copies

11. Ownership Certificates

One Certificate A, B, C, or D, must be completed, together with the Agricultural Holdings Certificate with this application form

CERTIFICATE OF OWNERSHIP - CERTIFICATE A**Town and Country Planning (Development Management Procedure) (England) Order 2010 Certificate under Article 12**

I certify/ The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner (owner is a person with a freehold interest or leasehold interest with at least 7 years left to run) of any part of the land or building to which the application relates

Signed - Applicant:

Or signed - Agent:

Date (DD/MM/YYYY):

CERTIFICATE OF OWNERSHIP - CERTIFICATE B**Town and Country Planning (Development Management Procedure) (England) Order 2010 Certificate under Article 12**

I certify/ The applicant certifies that I have/ the applicant has given the requisite notice to everyone else (as listed below) who, on the day 21 days before the date of this application, was the owner (owner is a person with a freehold interest or leasehold interest with at least 7 years left to run) of any part of the land or building to which this application relates.

Name of Owner	Address	Date Notice Served

Signed - Applicant:

Or signed - Agent:

Date (DD/MM/YYYY):

CERTIFICATE OF OWNERSHIP - CERTIFICATE C**Town and Country Planning (Development Management Procedure) (England) Order 2010 Certificate under Article 12**

I certify/ The applicant certifies that:

- Neither Certificate A or B can be issued for this application
- All reasonable steps have been taken to find out the names and addresses of the other owners (owner is a person with a freehold interest or leasehold interest with at least 7 years left to run) of the land or building, or of a part of it, but I have/ the applicant has been unable to do so

The steps taken were:

Name of Owner	Address	Date Notice Served

Notice of the application has been published in the following newspaper (circulating in the area where the land is situated):

On the following date (which must not be earlier than 21 days before the date of the application):

Signed - Applicant:

Or signed - Agent:

Date (DD/MM/YYYY):

12. Agricultural Land Declaration**AGRICULTURAL LAND DECLARATION****Town and Country Planning (Development Management Procedure) (England) Order 2010 Certificate under Article 12**
Agricultural Land Declaration - You Must Complete Either A or B

(A) None of the land to which the application relates is, or is part of, an agricultural holding

Signed - Applicant:

--

Or signed - Agent:

--

Date (DD/MM/YYYY):

31.5.11

(B) I have/ The applicant has given the requisite notice to every person other than myself/ the applicant who, on the day 21 days before the date of this application, was a tenant of an agricultural holding on all or part of the land to which this application relates, as listed below:

Name of Tenant	Address	Date Notice Served

Signed - Applicant:

--

Or signed - Agent:

--

Date (DD/MM/YYYY):

--

13. Planning Application Requirements - Checklist

Please read the following checklist to make sure you have sent all the information in support of your proposal. Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the Local Planning Authority has been submitted.

The original and 3 copies of a completed and dated application form:

The original and 3 copies of a design and access statement if proposed works fall within a conservation area or World Heritage Site, or relate to a Listed Building:

The correct fee:

The original and 3 copies of a plan which identifies the land to which the application relates drawn to an identified scale and showing the direction of North:

The original and 3 copies of the completed, dated Ownership Certificate (A, B, C or D - as applicable):

The original and 3 copies of other plans and drawings or information necessary to describe the subject of the application:

The original and 3 copies of the completed, dated Article 12 Certificate (Agricultural Holdings):

14. Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information.

Signed - Applicant:

Or signed - Agent:

Date (DD/MM/YYYY):

31.5.11

(date cannot be pre-application)

15. Applicant Contact Details

Telephone numbers

Country code: National number: Extension number:

Country code: Mobile number (optional):

Country code: Fax number (optional):

Email address (optional):

16. Agent Contact Details

Ref: B972

Dear Mr Holt

Protected Species Survey (Bats) at: 3 Arley Rise, Mellor, Lancashire, BB2 7EU

Introduction

You have requested a protected species survey at the above property on behalf of your client Julie Robinson, as a condition of a planning application to Ribbles Valley Borough Council for building alterations.

The local authority requires an appraisal of the impact of the development on all protected species in accordance with PPS9. Additionally mitigation procedures are required to protect bats and their roosts and to ensure there are *'no adverse effects on the favourable conservation status of a bat population'*.

A scoping survey and daylight inspection was undertaken on Monday 20 June 2011 between 09.30 and 10.00. The weather at the time of the inspection was mild, dry and bright (max temperature: 16.5°C; cloud cover: 20%; wind: light south-westerly) providing optimal conditions for a daylight scoping survey.

The inspection has found no evidence of bat activity and therefore it is highly unlikely that bats will be disturbed during the proposed development.

Survey methodology

The protected species survey (bats) provides a daylight assessment of the property

The aim of a bat inspection is to make an assessment of the potential value of the site for European Protected Species (EPS) and to establish whether bats have ever been active within any part of the property that will be affected by the building operations.

A desk study including data trawl was undertaken to identify records of bat activity within 1 km of the property.

The survey methodology follows the recommended monitoring guidelines published by the Bat Conservation Trust (*BCT – Bat Surveys, Good Practice Guidelines, 2007*), Natural England (*Survey Objectives, Methods and Standards as outlined in the Bat Mitigation Guidelines, 2004*) and Survey and Monitoring Methods, (*Bat Worker's Manual, JNCC, 2004*).

Non-intrusive survey methods were used to assess the use of the property by bats. The search was made using a high-powered lamp (Clu-lite 1,000,000 candle power), close-focussing binoculars (Leica Trinovid), a digital camera (Kodak MD41) and 900mm endoscope (ProVision 300) to view all likely areas of the building for the presence of bats, ie. droppings and urine and grease staining, feeding remains such as discarded moth and butterfly wings and other insects fragments typically found in a feeding and resting area

Personnel

The survey was carried out by David Fisher (Earthworks Environmental Design) - an experienced ecological consultant with more than 25 years experience of bat ecology and field survey work and a Natural England licence holder since 1990; current NE licence No: 20103384, (Conservation, Science and Education).

Constraints

The survey protocol requires that 'non-intrusive' survey techniques are used to determine bat activity within the building. (Ref: *Bat Surveys*, BCT, 2007, p23)

Activity loggers and / or ultrasonic bat detectors were not employed during the daylight scoping survey

Evening emergence and / or dawn re-entry surveys at the property have not been undertaken.

The survey methodology is designed to determine the likely presence of bats within the building and does not necessarily prove absence.

National Biodiversity Network (NBN Gateway) database records, whilst indicative of the bat species that likely to occur within a 10km square, do not confirm presence or absence of a species or habitat.

Absence of records does not imply that a particular bat species is not present within the recording area.

Data search

A local data search was carried to identify records of bat activity within 1km of the site. The following bat species are known to be present within the wider district:

NBN 10km squares SD63 and SD73:

- | | |
|--------------------------------|--|
| • Natterer's bat | (<i>Myotis nattereri</i>) ¹ |
| • Whiskered bat / Brandt's bat | (<i>M. mystacinus</i> / <i>M. brandtii</i>)* |
| • Daubenton's bat | (<i>M. daubentonii</i>)* |
| • Common long-eared bat | (<i>Plecotus auritus</i>)* |
| • Common pipistrelle | (<i>Pipistrellus pipistrellus</i>)* |
| • Soprano pipistrelle | (<i>P. pygmaeus</i>)* |
| • Noctule bat | (<i>Nyctalus noctula</i>) ¹ |

*National Biodiversity Network (NBN) datasets, (terrestrial mammals) recorded in SD63 and SD73 ¹EED dataset

The following websites and datasets were consulted during the preparation of this report:

1. National Biodiversity Network (NBN) database, (terrestrial mammals - chiroptera)
2. Bat Conservation Trust (BCT)
3. North Lancashire Bat Group
4. East Lancashire Bat Group
5. Lancashire Biodiversity Partnership
6. Biological Heritage Sites Partnership (LCC, NE and LWT)
7. EED dataset (Lancashire bat records 2000 - 2011)
8. Magicmap interactive map
9. Natureonthemap (Natural England)
10. Multimap
11. Google Maps
12. MARIO - Maps and related information online (Lancashire County Council)

There are no records of roosting bats at this particular property or at any neighbouring properties; a protected species survey was also carried at No. 1 Arley Rise on 1 February 2008, there was no evidence of roosting bats at the property.

There are no records of bat roosts within 0.5km of the site.

Description of the property

The property (figures 1 and 2) is a modern-style detached bungalow, built circa 1970, with brick cavity wall construction and pitched rafter with purlin roof (figure 3). The tiled roof is lined with a bitumastic felt (figure 3) and the roof void insulated with glass fibre material above the ceiling joists.

The void is used only for occasional access and domestic storage and the area is clean, dry and draught-free. There is a central heating boiler close to the NW gable end of the roof void as shown in figure 4.

Externally the property is relatively well-sealed and the existing fascia soffits are secure; all lead work, ridge tiles and verge tiles remain secure and all windows and doors are also sealed and fully secure.

Existing property (photographs)

Figure 1: Front elevation

Figure 2: Rear elevation

Figure 3: Roof void

Figure 4:

Location of the property

NGR: SD 654308 Elevation: 180m

The property is located within a well-established residential district of Mellor and is surrounded by several other properties of similar age, design and construction. The property is not adjacent to woodland edge, open countryside or any water channel or area of standing open water and there are no areas of high-value feeding, foraging or commuting habitat for bats within 0.5km of the site.

The nearest extensive woodland and water channel providing significant riparian habitat for bats is more than 1km south west of the property at Woodfold Park Estate.

There are no designated nature conservation sites adjacent to the property – ie. Sites of Special Scientific Interest (SSSI), Biological Heritage Sites (BHS), National Nature Reserves (NNR's), Local Nature Reserves (LNR's) or Regionally Important Geological and Geo-morphological Sites (RIGS).

There is no evidence of bat activity at this property

There are no signs of bat droppings, discarded feeding remains or other indicative signs of bat roosting activity within any part of the building.

All external features of the building including brickwork, roofing materials and fascia soffits were inspected for evidence of bat activity; none was found.

Nesting birds are present close to the north-west gable roof apex.

Evaluation of results

- The scale of impact of the proposed development at site level on local bat populations is negligible / low.
- All external features of the building are relatively well-sealed and secure therefore the potential of this property to support roosting, resting or perching bats is also considered negligible / low.
- The potential of the existing building to support a maternity roost, hibernation roost or transitory / mating roost is relatively low.
- The conservation significance of the building is low.
- The surrounding land / habitats provide sub-optimal feeding, foraging and commuting habitat for bats; the site is not adjacent to high-value feeding and foraging habitat and there are no extensive areas of broadleaved woodland, plantation, riparian habitat, open water or river channel adjacent to the site.

Summary and recommendations

The proposed building alterations are **unlikely to cause disturbance to bats** or result in the loss of a bat roost or cause injury or death of a European Protected Species – (Bats) or result in any significant impact on a local bat population.

The scale of impact of the development at site level on local bat populations is likely to be negligible or low.

Further survey effort at this site is not recommended.

MITIGATION NOTES:

Mitigation refers to the practices adopted to reduce or remove the risk of disturbance, injury or death of a protected species or damage to a roost. The Bat Mitigation Guidelines define mitigation as "...measures to protect the bat population from damaging activities and reduce or remove the impact of development".

ACTION:	METHOD:
1. Timing constraints	None.
2. Removal of roofing materials	There is only a very low risk of accidentally exposing roosting bats at this property; however, you should be aware that isolated bats are 'occasionally' found roosting beneath roofing materials at any time of year, although most commonly between May and November particularly in dwellings of this age, design and construction.
3. Accidental exposure of bats	In the unlikely event of bats being exposed or vulnerable to harm, all work in that area must stop immediately. Cover the exposed bats to reduce further risk of harm and seek further advice by calling the Bat Conservation Trust (BCT) helpline on 0845 1300 228. Stop work immediately if bats are exposed or likely to be disturbed. All contractors should be aware of their responsibilities to protected species. If accumulations of droppings are found during the removal of the roofing materials, stop work and seek advice before continuing work in this area.
4. Avoid handling bats	Contractors should avoid handling bats but where there is no alternative, use gloves or a small container to move them to a dark and quiet area, preferably without causing them to fly in daylight.
5. Legal protection	Site contractors and project managers should be fully aware of the legal protection afforded all species of bat in the UK and procedures should be in place to mitigate for the potential impact on bats - see notes on 'Bats and the Law' in this report.
6. Further advice	If you require further advice on bats during the proposed building operations or if you find an injured or resting bat, call BCT immediately; they will normally contact a qualified bat worker in the local area who will visit the site and provide further advice free of charge.
7. Post-development monitoring	None.
8. Additional survey effort	Not required.

Please note: I do not provide a copy of this report to the local planning authority, therefore it is your responsibility to forward the report to Ribble Valley Borough Council.

Yours sincerely

David Fisher

All bat species in the UK receive full protection under the Wildlife and Countryside Act 1981 (amended by the Environment Protection Act 1990). The Countryside and Rights of Way Act 2000 amends the Wildlife and Countryside Act to also make it an offence to intentionally or recklessly damage, destroy or obstruct a place that bats use for shelter or protection. All species of bats are listed on Schedule 5 of the 1981 Act, which makes it an offence to:

- *intentionally kill, injure or take any wild bat.*
- *intentionally or recklessly damage, destroy or obstruct access to any place that a wild bat uses for shelter or protection. This is taken to mean all bat roosts whether bats are present or not.*
- *intentionally or recklessly disturb any wild bat while it is occupying a structure or place which it uses for shelter or protection.*

Protected species (Bats) and the planning process¹

For development proposals requiring planning permission, the presence of bats, and therefore the need for a bat survey, is an important 'material planning consideration'. Adequate surveys are therefore required to establish the presence or absence of bats, to enable a prediction of the likely impact of the proposed development on them and their breeding sites or resting places and, if necessary, to design mitigation and compensation. Similarly, adequate survey information must accompany an application for a Habitats Regulations licence (also known as a Mitigation Licence) required to ensure that a proposed development is able to proceed lawfully.

The term 'development' [used in these guidelines] includes all activities requiring consent under relevant planning legislation and / or demolition operations requiring building control approval under the Building Act 1984.

Natural England (Formerly English Nature) states that development in relation to bats "covers a wide range of operations that have the potential to impact negatively on bats and bat populations. Typical examples would be the construction, modification, restoration or conversion of buildings and structures, as well as infrastructure, landfill or mineral extraction projects and demolition operations".

(Mitchell-Jones, 2004)
