Graeme

23 NOV 2011

When visiting the site I noted that loose gravel from the existing entrance area was being carried onto Cross Lane. I have no objection to this proposal, subject to the following condition:

1. Before the new access track is used for vehicular purposes, that part of the existing entrance extending from the highway boundary for a minimum distance of 5 metres into the site shall be appropriately paved in tarmacadam, concrete, block pavements, or other approved materials Reason: To prevent loose surface material from being carried onto the public highway thus causing a potential source of danger to other road users.

Regards

Our scanner is still broken, so I'm afraid that I have had to scan the site plan in two pieces for you to stick together
