Dear Ms Tucker,

Thank you for seeking the views of Hyndburn Borough Council on the planning application detailed above.

I note that the application is a resubmission of a scheme which Hyndburn Council made comments on in August 2010 regarding Green Belt issues (reference 3/2010/0564). The scheme was subsequently granted planning permission and therefore the principle of the development of the site has already been established.

I also note that the application involves a repositioning of the building within the site and would ask you to consider the impact of this on the openness of the Green Belt in the locality.

Regards,

Farooq Rafiq

Please can we have your comments on the above planning application? It is for the erection of a new investment casting foundry at the rear of the operational site, including parking and service areas (Resubmission) There are too many plans and documents to attach to an email, so I have just attached the formal consultation letter, and here is a link to view the plans on our website
