Morning Colin

Sorry, I don't seem to have received a consultation email for 03/2011/0643, but I've just had a look now and we have no objections.

Mark,

Can you please send me ASAP what I assume will be a "no objections" to 3/2011/0643.

Thanks,
Colin.

Hi Colin

Graeme tells me you now have both these adjacent applications at Langho!

I have had a look at your files and see that you have received a highway "no objection" to 644, but there is nothing on 643 from highways. There were no highway objections previously, but as the applications are already 9 weeks old I am keen to avoid more delay and would be grateful if you could chase it
