Subject: 41 Dilworth Lane, Longridge (3/2011/0654)

Graeme,

FOR THE
ATTENTION OF

20 SEP 2011

PROPOSED: Construction of new, detached, triple garage with office space above. 41 Dilworth Lane, Longridge (3/2011/0654).

The 1st Edition Ordnance Survey 1:10560, Lancashire Sheet 54, surveyed 1844 shows the proposal site to be occupied by a substantial building with a possible garden to the south. No trace of this building is shown on the 1st Edition OS 1:2500, Lancashire Sheet 54.05, surveyed in 1892, when Gardener's Cottage is recorded as *Dilworth House Farm*. The exact date of construction of this building is unknown, as is the nature of the demolition works that were undertaken between 1844 & 1892.

There is therefore a potential for the current proposals to encounter structural remains associated with this building, which may provide information as to its date of construction and function. Consequently LCAS considers that in this instance the applicants be required to undertake a programme of archaeological work, and that such works should be secured by means of the following condition, which should be attached to any planning permission which may be granted;

Condition: No development shall take place until the applicant, or their agent or successors in title, has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted by the applicant and approved by the Planning Authority.

Reason: To ensure and safeguard the recording of any archaeological deposits associated with the site

This is in accordance with PPS5, Policy HE12.3 (Where the loss of the whole or a material part of a heritage asset's significance is justified, local planning authorities should require the developer to record and advance understanding of the significance of the heritage asset before it is lost, using planning conditions or obligations as appropriate).

Specifications and a list of professionally qualified archaeological organisations that could carry out the appropriate archaeological works can be obtained from Lancashire County Archaeology Service
