United Utilities offers a fully supported mapping service at a modest cost for our electricity, water mains and sewerage assets. This is a service, which is constantly updated by our Map Services Team (Tel No: 0870 7510101) and I recommend that the applicant give early consideration in project design as it is better value than traditional methods of data gathering. It is, however, the applicant's responsibility to demonstrate the exact relationship on site between any assets that may cross the site and any proposed development.

Please note United Utilities will become responsible for all Private Sewers from October 1st 2011. We will take ownership of an additional 30,000km of sewers which may not currently be shown on our statutory sewer map.
