

PROPOSED ELEVATION VIEW OF THE FULL ARRAY

PROPOSED SECTION

PLANNING NOTES

THE PROPOSAL IS A FREE STANDING 8KWp SOLAR INSTALLATION LOCATED ON LAND ADJACENT TO THE FARMHOUSE. THE SOLAR PANELS ARE 250W CNPV MONOCRYSTALLINE ALUMINIUM FRAMED UNITS FIXED TO A STAINLESS STEEL MOUNTING FRAMEWORK BY SCHLETTER. THE MOUNTINGS ARE BOLTED DOWN TO CONCRETE FOUNDATIONS TO ENSURE STABILITY. THE CABLES FROM THE INSTALLATION WILL BE FED UNDERGROUND BACK TO THE FARMHOUSE AND THE GENERATED POWER WILL BE DISTRIBUTED ON THE SITE.

REFER TO THE PHOTOGRAPH OF THE SITE AND THE LOCATION PLAN SUBMITTED WITH THE PLANNING APPLICATION. REFER ALSO TO THE TECHNICAL INFORMATION REGARDING THE PANELS AND THE MOUNTINGS.

THE INSTALLATION CAN BE VIEWED FROM A DISTANCE OF 750M FROM THE MAIN HIGHWAY (CLITHEROE ROAD) RUNNING PAST CHEETALL FARM. THE SITE IS SET DOWN FROM THE MAIN FARM COMPLEX AND THERE ARE NO LISTED BUILDINGS WITHIN THE CURTILAGE.
