**THIS STATEMENT HAS BEEN PREPARED BY: LYNNE RUSHWORTH WHO HAS

COURSE FOR CONSULTANTS, AND 'PLANNING AND PREPARATION OF BAT SURVEYS'
COURSE**

All British bats and their roosts are legally protected under the Wildlife and Countryside Act 1981, the Countryside and Rights of Way Act 2000 and the Conservation (Natural Habitats) Regulations 2007.

THE BRIEF

In conjunction with the submission of an application for planning approval, to identify if bats are present in the building and the past or possible future use of the building by bats.

320110871P

BAT LEGISLATION - Summary of offences under the law:

- Intentionally kill, injure or capture a bat
- Possess or control a live or dead bat, or any part or derivative of a bat.
- Intentionally or recklessly damage, destroy or obstruct access to any structure or place that a bat uses for shelter or protection whether currently used or not.
- Intentionally or recklessly disturb a bat while occupying a structure or place of shelter or protection. ('Recklessly' is defined as deliberately take unacceptable risk or fail to notice or consider an obvious risk).

LIMITATIONS OF REPORT

NOTE: The absence of bats is near impossible to prove. The bats' high mobility means it is virtually impossible to rule out bats using any type of structure for roosting or habitat for foraging or on a flight path.

- External walls and internal rooms inspected from ground level.
- Roof spaces, attics and lofts will only be inspected if safe access is possible.
- Winter surveys will provide limited results. However internal inspection should determine if bats have used the building in the previous year.
- Any building whose structure is considered dangerous can only be inspected from a safe distance.
