Date 22-NOV-11

Dear Sir/Madam,

Location : Elswick Farm Mellor Brow Mellor Lancashire BB2 7EX
Proposal : Application for the removal of condition no. 17 (occupancy period) of planning consent 3/2004/0450P, to allow the use of units 3 and 4 as permanent residential accommodation.

Thank you for your planning consultation of 04/11/11. I have **no objection** to the proposed development as we do not anticipate any increase in discharge from the site.

United Utilities encourages the use of water efficient designs and development wherever this is possible. The most up to date advice for water efficiency and water efficiency products can be found at Water wise who have recently published a best practice guide on water efficiency for new developments. We would encourage utilisation of the following water efficiency activities:

Installing the latest water efficient products, such as a 4.5l flush toilet instead of the 6l type. Minimise run lengths of hot and cold water pipes from storage to tap/shower areas. This minimises the amount of waste during the time the water goes from cold to hot. Utilising drought resistant varieties of trees, plants and grasses when landscaping. Install water efficient appliances such as dishwashers, washing machines.

United Utilities offer a fully supported mapping service at a modest cost for our water mains and sewerage assets. This is a service, which is constantly updated by our Property Searches Team (Tel No: 0870 7510101) and I recommend that the applicant give early consideration in project design as it is better value than traditional methods of data gathering. It is, however, the applicant's responsibility to demonstrate the exact relationship on site between any assets that may cross the site and any proposed development

Please note, due to the public sewer transfer, not all sewers are currently shown on the statutory sewer records, if a sewer is discovered during construction, please contact a Building Control Body to discuss the matter further.

Yours Faithfully,

Lorna Church, Asset Protection, United Utilities
