 Thankyou for your consultation .

We are very concerned by the proposed suspended ceiling within the corridor.

The present proportions are attractive as are the archheads - and the new ceiling will be both visually damaging and claustrophobic in its effect

<<11 0915 consult ams pdf>>

Please can we have your comments on the above planning application? It is for the proposed refurbishment and upgrade of the ground floor central corridor and the conversion of existing changing rooms into scientific facilities. I have attached the formal consultation letter and listing description and here is a link to view the plans on our website
