

Construction (Design and Management) Regulations 2007
 Designer Considerations
 Street Design Partnership's duty on this project is that of "Designer" as defined by Regulation 2, and have avoided foreseeable risk to those involved in the construction and future use of the structure and in its being situated in a hazardous area (as far as is reasonably practical, taking account of other design considerations) and reduced risk associated with those hazards. The Designer has provided adequate information about any significant risks associated with the design and to coordinate the work with others in order to improve the way in which risks are managed and controlled. The associated risks are restricted to site or project specific risks and as such are not considered as a complete and final list of all hazards that may arise.

2B3P - Type E (2 Storey Block)
 53 m²
 570 ft²
 Internal area (to finishes)

2B3P - Type E (3 Storey Block)
 53 m²
 570 ft²
 Internal area (to finishes)
