Subject: RE: Observations on this application please - Kendal House, 24 Chatburn Road

Afternoon Claire,

I have no objection to this application on highway safety grounds as the proposed amendments to the existing operation of the facilities at this address will have minimal impact on the local highway network.

However, the applicant states that there are two of street car parking spaces to the rear of the property. These spaces are not presently identified on site and should be marked out permanently. Furthermore, if they are for the use of visitors/customers, what information is being provided by the practise to encourage the use of these spaces?

Martin

Martin,

I have attached the application and a copy of the objection. Please will you give me your observations.

I have attached a photograph which I took yesterday showing only one car parked at the rear and at an angle due to the restrictive access to the site.

Thanks

Claire
