Graeme

I have no objection to this proposal provided that the northern access point remains for the use of vehicles entering the site only

I note that the intention is to widen the northern access point, therefore please add the following note to any permission granted:

Note: This consent requires the construction, improvement or alteration of an access to the public highway. Under the Highways Act 1980 Section 184 the County Council as Highway Authority must specify the works to be carried out. Only the Highway Authority or a contractor approved by the Highway Authority can carry out these works and therefore before any access works can start you must contact the Environment Directorate for further information, details below:
