Drafted 31 May 2012

Dear Sir

**Outline Planning Application, Ribble Valley District  
3/11/1064 Primrose Mill (second phase) and Woone Lane, Clitheroe**

I refer to the amended plans for the junction of Whalley Road and Primrose Road, Clitheroe submitted on 31 May 2012 as part of the detailed drawings in support of the above outline application.

Further to my previous comments concerning the proposed highway improvements at this junction, Drawing No – N01952/08 RevB, provides a suitable design within the existing carriageway width, incorporating 2 x 3.1m running lanes and a 2.5m right turn lane.

I am satisfied that this arrangement complies with basic design principles, as set out in the Design Manual for Roads and Bridges, Volume 6 (most recently updated November 2011).

On this basis, I recommend this layout and have no further objections to the proposed application as it establishes a junction layout that corresponds to the essential highway design criteria for a right-turn ghost-island.

It should be noted that contributions and Conditions outlined in previous responses concerning this application still apply.

Yours sincerely,

Martin Nugent
