Graeme

**PLANNING APPLICATION 03/2011/0445
LAND ADJACENT TO ENTERPRISE WORKS, WARWICK STREET, LONGRIDGE**

I am not convinced that the applicant has sufficient space to provide the 20 off-street parking spaces within the site indicated on the revised plans, however provided that the areas indicated on either side of the courtyard area fronting Warwick Street and at either end of the retained stores building at the rear of the plot are reserved for parking this will comfortably allow 15 vehicles to park and I would have no objection to the proposal.
