DESIGN & ACCESS/HERITAGE STATEMENT

PROPOSED EXTENSION TO EXISTING CAR PARK OVER SITE OF
REDUNDANT TOILET BLOCK TO BE DEMOLISHED.
FOR WHALLEY MEDICAL GROUP, 42 KING STREET, WHALLEY.

The enclosed Planning Application follows on from the Conservation Area Consent to demolish a redundant toilet block (application ref. no. 3/2011/0105), which was approved on the 9th May 2011. This consent required that a Planning Application be subsequently made to indicate how the site of the demolished toilet block would be re-developed.

The proposal is that the area be levelled, prepared and have a tarmac finish to match the existing car park. The boundary treatment would be as indicated on the site plan, ie. to be of matching materials, either natural stone or reconstituted stone as appropriate.

By extending the car park in this way, provision is created for ambulances, wheelchairs or seriously ill patients to access the surgery by the rear entrance to the building rather than the King Street access at the front of the building with it's traffic issues. No additional parking spaces are being created, but manoeuvring space will be provided within the car park. The intention is to improve patient access and care.

The toilet block, we believe, was built c. 1934 and was closed in 2009. It became redundant when the new toilet block at Whalley Bus Station was completed. The toilets were accessed between Whalley Medical Centre and Lloyds Chemists via a back street and were well hidden from view from King Street. Unsavoury activities taking place there became a social nuisance and a cause for concern for local residents.

To quote the reason for approval for demolition on the Conservation Area Consent: 'The potential public benefit of the community use would outweigh any loss of building defined as a Heritage Asset and would not be to the detriment of the visual amenity of the area'.
