Sarah Westwood
Ribble Valley Borough Council
Church Walk
Clitheroe

Dear Sarah:

PLANNING APPLICATION 3/2012/0179

I refer to my previous correspondence dated 20th March 2012 and 22nd September 2012 regarding the parish council's objections to this application.

The parish council views the approval of this application by RVBC to be wrong especially as this development will result in an increase in traffic in Whalley. Subsequent successful planning applications in, and around the vicinity of Whalley, will further exacerbate the problem of congestion especially on street parking in the village.

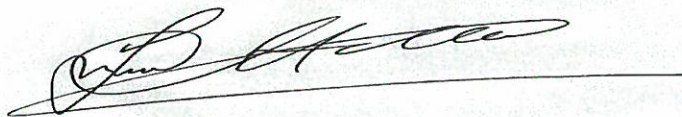

The parish council has consistently advocated that time limited parking should be introduced especially, but not exclusively, along King St, Accrington Road and George St. However the displacement of cars onto the streets of adjoining residential areas will: a. not only results in displeasure to residents having cars parked outside their homes all day but b. increases the possibility of accidents both to motorists and pedestrians.

The present applications planned parking area is not be enough for residents and visitors. They in turn will be displaced and have to park elsewhere, presumably along the already congested Accrington Road.

To alleviate to some extent, although not to eradicate totally these problems, the parish council urge RVBC officers and councillors to seek an amendment to the above application by increasing the amount of car parking space on site. This additional car parking should then be made available to the Whalley community.

If RVBC officers and councillors are minded not to consider these suggestions then the parish council would be interested in negotiating for this provision for Whalley residents.

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'Fred Holland', is written over a horizontal line.

Fred Holland

Clerk to Whalley Parish Council
