Exterior Signage

10th April 2012

Heritage Statement

42 Berry Lane occupies a site between Severn Street and Humber Street and is one of a number of two storey 19th century building set back from the Berry Lane itself. The construction is stone faced and the new shopfront and fascia have been constructed in line with a previous approved planning application 3/2011/0499.

The premises directly face the 'negative' rated Co-Op building and adjacent car park.

The tenants Entwistle Green Estate Agents have fitted out the interior of the shop to reflect the nature of the conservation area and the fascia and projecting signage are sympathetic with this.

The fascia and projecting signs are in the subdued corporate colours of black with white text and a small red/white/green flash. The fascia sign itself comprises stand-off text with indirect trough illumination and the internally illuminated projecting flag sign by nature of the colours, provides a subtle illumination. Both these signs are direct replacements for previous HSBC signs in white black and red.

The newly fitted premises are a significant improvement on the previous poor shopfront and provide a valuable commercial presence in difficult economic times. A commercial presence which requires advertising signage which we feel is highly appropriate to a building of township merit.
