Dear Sir/Madam

Location: Land Off Hey Road, Barrow, Clitheroe, Lancashire BB7 9WA
Proposal: Outline Application for mixed B1, B2 and B8 industrial use including means of access

With reference to the above planning application,

Recent investigations have confirmed that Whalley WWTW and the sewer network serving the area is nearing capacity. To ensure that there is a consistent & fair approach taken by United Utilities we would ask that all development applications include an indicative layout plan, a schedule showing the type of housing to be built, a program of works showing build rates, a Load & Flow impact assessment, preferred discharge points and proposed rates of flow for each discharge point so that United Utilities can determine the full impact that the development has on our assets. Therefore United Utilities will object to the application pending the submission of the additional information.

United Utilities offer a fully supported mapping service at a modest cost for our water mains and sewerage assets. This is a service, which is constantly updated by our Property Searches Team (Tel No: 0870 7510101). It is the applicant's responsibility to demonstrate the exact relationship between any assets that may cross the site and any proposed development

Please note, due to the public sewer transfer, not all sewers are currently shown on the statutory sewer records, if a sewer is discovered during construction, please contact a Building Control Body to discuss the matter further.

Yours Faithfully,

Daniel McDermott
