3/2012/0402 35.2 m Wind Turbine Bashall Eaves

Bashall Eaves and Mitton Parish Council vigorously opposes the construction of such a large turbine in an Area of Outstanding Natural Beauty. It is similar in scale to those recently proposed in Langho (not an AONB) and subject to concerted local opposition. We have consulted CPRE and are assured that they support us in our view that approval of such a large turbine would be unprecedented in an AONB.

Ian Smith (Parish Clerk)
