Dear Sir

**PROPOSED NEW SLURRY LAGOON - PERMEABILITY RESULTS
WITHGILL FARM, WITHGILL FOLD, WITHGILL, CLITHEROE**

Thank you for consulting with us on the permeability results for the above slurry lagoon which we received on the 30 July 2012.

I can confirm that the permeability results appear to show that the soil is suitable for the construction of an earth bank slurry lagoon we therefore remove our original objection to this proposal.

The applicant should ensure that the slurry lagoon is fully compliant with the Water Resources (control of pollution, silage, slurry and agricultural fuel oil) Regulations 2012 (SSAFO) and should ensure that they notify us (using a WQE3 form) at least 14 days before they start to use the structure.

Further information on the SSAFO regulations can be found on our website:
