Subject: 3/2012/0423 Withgill Farm slurry lagoon

Dear Planning,

Bashall Eaves and Mitton Parish Council opposed the recent increased number of cattle at Withgill Farm because of environmental stress caused by excrement disposal. Disposal on fields has also meant recurring foul odours affecting property at Withgill Fold for example. If the present proposal is to ameliorate this problem it is to be welcomed. If it is a prelude to further increases in numbers of cattle it is to be opposed.

Ian M Smith (Parish Clerk)
