Claire

I have no objection to this proposal, however the additional parking space proposed will require an extension to the existing dropped kerb to allow vehicles to enter and leave the highway safely (as in fact does one of the existing two parking spaces). Please add the following note to any consent granted:

Note: This consent requires the construction, improvement or alteration of an access to the public highway. Under the Highways Act 1980 Section 184 the County Council as Highway Authority must specify the works to be carried out. Only the Highway Authority or a contractor approved by the Highway Authority can carry out these works and therefore before any access works can start you must contact the Environment Directorate for further information, details below:
