Response from Bashall Eaves and Mitton Parish Council

The Parish Council visited the site on 30 June. And is opposed to this development because :

1 The scale is out of proportion to any surrounding buildings. From Mitton Church it is clearly visible and destroys the otherwise rural scene.

2 A building of this scale is intended as a rather major manufacturing enterprise (much more significant than the "dog kennel manufacture" in the application). Several employees conducting metal-working and associated activities will lead to unacceptable noise and disturbance in a rural environment.

Ian M Smith (Parish Clerk)
