6. Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicle access proposed to or from the public highway? ☐ Yes ☒ No

Is a new or altered pedestrian access proposed to or from the public highway? ☐ Yes ☒ No

Are there any new public roads to be provided within the site? ☐ Yes ☒ No

Are there any new public rights of way to be provided within or adjacent to the site? ☐ Yes ☒ No

Do the proposals require any diversions /extinguishments and/or creation of rights of way? ☐ Yes ☒ No

If you answered Yes to any of the above questions, please show details on your plans/drawings and state the reference of the plan(s)/drawings(s)

7. Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste? ☐ Yes ☒ No

If Yes, please provide details:

Have arrangements been made for the separate storage and collection of recyclable waste? ☐ Yes ☒ No

If Yes, please provide details:

8. Neighbour and Community Consultation

Have you consulted your neighbours or the local community about the proposal? ☒ Yes ☐ No

If Yes, please provide details:

9. Council Employee / Member

Is the applicant or agent related to any member of staff or elected member of the council? ☐ Yes ☒ No

If Yes, please provide details:

12. Foul Sewage

Please state how foul sewage is to be disposed of:

- ☐ Mains sewer ☐ Cess pit
☐ Septic tank ☐ Other
☐ Package treatment plant ☒ N/A

Are you proposing to connect to the existing drainage system? ☐ Yes ☒ No

If Yes, please include the details of the existing system on the application drawings and state references for the plan(s)/drawing(s):

13. Assessment of Flood Risk

Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and 3 and consult Environment Agency standing advice and your local planning authority requirements for information as necessary)

☐ Yes ☒ No

If Yes, you will need to submit a Flood Risk Assessment to consider the risk to the proposed site.

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)? ☒ Yes ☐ No

Will the proposal increase the flood risk elsewhere? ☐ Yes ☒ No

How will surface water be disposed of?

- ☐ Sustainable drainage system ☐ Existing watercourse
☒ Soakaway ☐ Pond/lake
☐ Main sewer

14. Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

15. Existing Use

Please describe the current use of the site:

Farm Yard

Is the site currently vacant? ☐ Yes ☒ No

If Yes, please describe the last use of the site:

When did this use end (if known)?
DD/MM/YYYY

(date where known may be approximate)

Does the proposal involve any of the following:

Land which is known to be contaminated? ☐ Yes ☐ No

Land where contamination is suspected for all or part of the site? ☐ Yes ☐ No

A proposed use that would be particularly vulnerable to the presence of contamination? ☐ Yes ☐ No

If you have answered Yes to any of the above, you will need to submit an appropriate contamination assessment

16. Trees and Hedges

Are there trees or hedges on the proposed development site? ☐ Yes ☒ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? ☐ Yes ☒ No

If Yes to either or both of the above, you will need to provide a full Tree Survey, with accompanying plan before your application can be determined. Your Local Planning Authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to construction - Recommendations'

17. Trade Effluent

Does the proposal involve the need to dispose of trade effluents or waste? ☐ Yes ☒ No

If Yes, please describe the nature, volume and means of disposal of trade effluents or waste

10. Materials

If applicable, please state what materials are to be used externally. Include type, colour and name for each material:

DESIGN AND ACCESS STATEMENT PRO-FORMA

From the 10 August 2006, planning applications relating to certain types of developments are required to be submitted with a design and access statement. When submitting an application, failure to provide a design and access statement of sufficient standard may result in a delayed registration of the application.

What Applications Need to be Accompanied by a Design and Access Statement?

Most planning applications have to be accompanied by a design and access statement, the exceptions being:

- material change in the use of land or buildings, unless it also involves operational development;
- engineering or mining operations;
- development of an existing dwellinghouse, or development within the curtilage or a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse, where no part of that dwellinghouse or curtilage is within a designated area or is a listed building. 'Designated Areas' include: • Conservation Areas; • Sites of Special Scientific Interest (SSSI); and • Areas of Outstanding Natural Beauty (AONB)

Process

What factors have you considered when deciding upon the use, design, scale, layout and materials used in the proposed development?

We have looked at other farm buildings recently constructed in the area and kept our proposed building in character with those. The materials will consist of a steel frame, concrete panels and yorkshire boarding, which are common in the area. The building will be located in our hardstanding farmyard and next to a group of farm buildings.

Use

What will the extension/development be used for and justify why this is necessary?

machinery / Tractor shed
We would be separating part of our main building off for poultry (up to 250 chickens), which is an extension part of our farm business. By doing this we would be reducing our space in our main building. This additional building would be used for machinery / tractor shed and would compensate the loss of space. This would also separate our tractors/machinery from combustible materials such as hay, straw etc.

What is the proposed size of the extension/development and why is this necessary and appropriate for the setting of the development?

18.2 m x 9.1 m x 3.9 m to eaves.
It would not be altering any green areas as it is already hardstanding and within a group of farm buildings.

Layout

Why have you chosen the layout specified in the planning application and how did you eliminate alternative options?

The building needs to be discrete and blend in with other farm buildings and close to our farm. This I feel meets all, without compromising on the local area.

Scale

Is the scale of the extension/development in keeping with the context of the site and in what way?

Fits in the local area, on a hardstanding area which already exists without altering the yard area.

Landscaping

If appropriate, specify the boundary treatments and any landscaping included in the development. You may need to justify why certain materials or planting have been used?

Appearance

Specify how the extension/development fits in terms of its appearance and include details of materials to be used

There are mixed agricultural buildings nearby which are constructed of wood, tin and steel. Our proposed building will be constructed of a steel frame, concrete base panels and timber cladding. This will fit into the local area.

Access

Explain how the extension/development will be accessed by vehicles and people. You should consider the need for access by all members of society and emergency vehicles

Accessed through Fellview Barn, no issues or restrictions.

Ref: additional information

We currently have a building for livestock/machinery/hay. This building is of adequate size to accommodate our needs at lambing time and for the storage of hay and machines. Over twelve months ago we developed a new part of our farm business allowing school children, nurseries and nursing homes the opportunity to incubate and hatch their own chicks. This has been a great success. We would now like to develop our own parent stock to enable us to produce our own hatching eggs as we currently buy in the eggs and also raise the chicks to around four weeks old. After four weeks we take them to other locations to bring them to point of lay. This would provide our farm with additional income as we are currently giving our chicks away

We have recently applied to construct a chicken house at the bottom of our farm yard but we have now withdrawn it due to the concerns relating to smell and noise with our neighbours. Although we would only have around 250 chickens at any one time and the risk is small. I think it would be more appropriate to internally divide our current building to house the chickens as there will be no cause for concern relating to the above issues. By dividing the building we would lose valuable internal space and therefore would require an additional building to accommodate the loss. We propose that all our machinery is located in a separate building in our farm yard. The building would be next to our neighbours wooden farm building and on a hard standing type area which is already present.
