15th August 2012

F A O John Machole

Dear Mr Machole

At a meeting of the above council with regard to planning permission application no: 3/2012/0561 submitted by Mrs Angela Porter for proposed engineering operations to form earth banked slurry lagoon and laying of concrete railway sleepers to form cow track across land at Hodder Bank Farm, Dunsop Road, Whitewell BB7 3AU.

After a discussion and inspection of the plans, whilst the councillors have no objections to the plans, the following problem should be addressed and should be a condition of the granting planning approval Surface water runs down the track and over the cattle grid onto the main road and we feel this should be addressed in order that any seepage from the lagoon does not mix with the surface water This problem has existed for a number of years and has not been rectified

The plans were sent to Bowland with Leagram Parish Council, they were then forwarded on to Lower Division Parish Council but we did not receive the plans until 4th July 2012

Yours sincerely

Elsie Miller
Parish Clerk

Crimpton Farm
Easington Road
Cow Ark
