Design and Access Statement

In support of a Planning Application for

**A New Agricultural Livestock building
For the housing of dairy cattle**

Applicant

**Mr S Forshaw
Bolton Fold Farm
Alston Lane
Alston
Longridge
PR3 3BN**

Appearance

The proposed building has been designed to reflect the existing buildings on site. The use of materials such as the Tanalized timber Yorkshire boarding and the concrete panels to the walls and the roof materials which will be Eternit Farmscape profile 6 cement fibre sheets will be identical to the building the proposed is sited adjacent to. Once complete the new building and the proposed building will look like one building.

Siting

The proposed building will be sited adjacent an existing cubicle building within close proximity to the milking parlour. This building will be sited well within the built environment of the farm and will not cause any detrimental impact on the surrounding area, nor take up valuable agricultural land.

Landscaping

No hard or soft landscaping is proposed as part of this application however if the local authority felt landscaping was necessary the applicant would be happy to discuss this whilst the application is in.

Use

The applicant runs a successful dairy herd. He currently has 165 cows in milk, 32 in calf heifers, 57 stirks, 30 bulling heifers, 41 beef cattle and 39 replacement heifer calves this gives the overall stocking number on the farm as at 23rd June 2012 at 364. The dairy farm is split into two dairy herds with the parlour used by both herds for milking each day. The existing buildings are split into two and each dairy unit has its own silage clamps, machinery store and feed bays. The applicant owns 140 acres of land and rents an additional 100 acres 50 at Downham and 50 in Chorley.

The proposed building will provide much needed extra cubicle housing for the applicants' dairy cows. Some of the cows are still in kennels and these are out dated for modern dairy cows and do not provide adequate room or access to the feed fence. It is the applicant's intention to move his larger cows into the new cubicle housing and use the kennel building for young stock.

Layout

The layout of the existing and proposed buildings can clearly be seen on the drawings which accompany this planning application.

320120563 P

Scale

The scale of the building is in keeping with the other buildings on site, and has been designed around the needs of the dairy cows and the amount of cubicles the applicant needs for his animals.

Access

Access to the building will be from the existing farm yard, there is adequate room for the turning and manovering of vehicles and room for emergency services if they were ever required on site.
