FAO Claire Booth,

Re Windy Hills Farm, Chipping, 3/2012/0639

I see that there were amended plans on 10/8/12. Are we being consulted again regarding the amendment?

The only observation on the original plans was that it is stated that access can be gained from both the east and the west. Currently the west track is unsuitable for most vehicles but we understand the applicant plans to make improvements to it to make it usable.

Thanks

Jayne Marginson
