CONTENTS

1 Proposed Development

The proposed development concerns the Change of Use of a building from Garage/ Depot to an A1 retail use/ B1 Warehouse.

As part of the floor area of the proposed use there will be a separately accessed shop front area, this will be where the main area of business will take place.

As part of the change of use alterations will be made to the exterior of the building. This will be done so that it reflects the 'shop front' type use. A large sliding door which runs the full length of the North facing gable elevation will be removed and replaced so that the elevation will consist of: a 3 meter wide roller shutter door at the left of the elevation, to access the storage area. A 3 meter wide pedestrian glazed door, with glazed surround.

EXISTING FRONT ELEVATION NORTH FACING

PROPOSED FRONT ELEVATION NORTH FACING

320120656P

This application seeks to change the use of one building, from a garage/depot into A1 retail and B1 ancillary warehousing, supporting a business use that is already established on the Pendle Trading Estate, within the existing premises and yard of E & D plant Hire, outlined in red below. These premises and yard are not suitable for public access, nor are they large enough to house two retail businesses, and as the hire element of the business is already established in this area, the applicant has secured the lease of the subject building of this application; in which to locate a purpose built retail outlet for the builders merchant business.

3 The Process

E & D Builders Merchants has evolved from the existing hire business on the site, and has outgrown the existing premises. The applicant intends to use the new premises as an A1 retail outlet for builders merchandise, with the goods being displayed in the building that are not suitable for outdoor storage such as plaster board, insulation and other perishable items, and sand aggregates, decorative gravel, flags etc in the adjacent yard area. The existing yard to the rear of the premises of E & D Hire will still be the main bulk storage area, where deliveries will still be made, to and from, with the new yard being more of a display area for the many products stocked. There will be no additional delivery vehicles to the site, as these will continue as they have for many years.

It is anticipated that this new element of the business will create 3-4 new employment positions.

4 Appearance

The existing building will not alter other than to provide customer and delivery access on the north facing gable in the form of a glazed public entrance, to the right, and a roller shutter door to the right.

5 Landscaping

No landscaping is proposed as part of this application, it is within an established industrial location.

6 Access and Parking

Access to the site is from the Chatburn Road, and there is plenty of room for manoeuvring of vehicles on site, including emergency vehicles if they were required.

E & D will provide a delivery service if necessary with one of their existing vehicles, which are already in use delivering/collecting hire items in the locality.

Parking will be accommodated to the immediate front of the building and to the plot of land owned by the applicant to the east of the building, and marked on the plan. There is ample room for roadside parking on the industrial estate.

Policy

The proposal complies with the council's local plan policies outlined below.

POLICY EMP7

The expansion of existing firms within the main settlement will be allowed on land within or adjacent to their existing sites, provided no significant environmental problems are caused and the extension conforms to the other policies of this plan.

The maintenance of existing sources of employment is essential to the continued economic viability of the area. Firms will benefit from the ability to expand their operations without necessitating relocation.

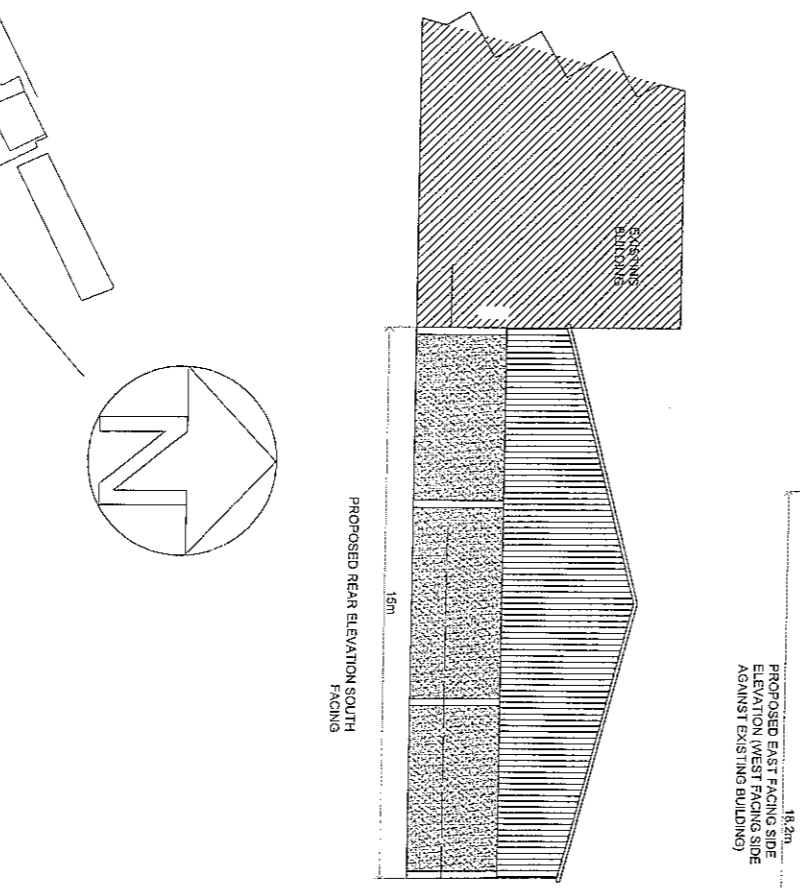

Policy EMP 8

There are a number of firms in the Borough which are located outside the main settlements. The Council has no wish to restrict their continued prosperity and efficiency. This does not mean that harmful developments will be allowed. Enough industrial land is available in the Borough to prevent the need for any firm expanding to such an extent that it harms the landscape or residential amenities of the area.
