II

Part of a row of weavers' houses, late C18th. Squared sandstone with brick stacks and slate roof. 2 storeys with continuous plain frieze and stone gutter brackets. Windows have plain reveals and projecting sills, the doors, to the right, having plain stone surrounds. No. 8, of one bay, has sashed windows and a triangular moulded stone door hood on stone brackets, with a stone plaque over inscribed 'BFB 1795'. No. 9 has a similar door hood, modern windows, and a 2nd 1st floor window over the door. To the right is a tunnel entrance with plain stone surround and semi-circular head with projecting key and imposts. No. 12 has a 2nd, modern, 1st floor window, as does No. 13, which has cement reveals to the ground floor door and window and a tunnel entrance to the right with plain stone surround. No. 14 has cement dressings. No. 15 has plain stone surrounds, possibly of c.1900, with a tunnel entrance to the right with plain stone surround. Nos. 14 and 15, although altered, continue the facade of the row and are listed for group value.
