Colin

The junction of Dale View and Whalley New Road was improved as part of the adjacent Redrow development some years ago and would comfortably be able to cope with the additional traffic generated by ten new dwellings in addition to the 12 dwellings from application 3/2012/0065. I therefore have no objection on highway safety grounds to this proposal.

This is an outline planning application and details of the internal highway layout are at present described as indicative, however it is assumed that the intention is for the highway infrastructure within the development site to be adopted by the Highway Authority, in which case an agreement under Section 38 of the Highways Act will be required between the developer and Lancashire County Council.

It should also be noted that Dale View has not yet been adopted by the Highway Authority.
