DESIGN AND ACCESS STATEMENT PRO-FORMA

From the 10 August 2006, planning applications relating to certain types of developments are required to be submitted with a design and access statement. When submitting an application, failure to provide a design and access statement of sufficient standard may result in a delayed registration of the application.

What Applications Need to be Accompanied by a Design and Access Statement?

Most planning applications have to be accompanied by a design and access statement, the exceptions being:

- material change in the use of land or buildings, unless it also involves operational development;
- engineering or mining operations;
- development of an existing dwellinghouse, or development within the curtilage or a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse, where no part of that dwellinghouse or curtilage is within a designated area or is a listed building. 'Designated Areas' include: • Conservation Areas; • Sites of Special Scientific Interest (SSSI); and • Areas of Outstanding Natural Beauty (AONB).

Process

What factors have you considered when deciding upon the use, design, scale, layout and materials used in the proposed development?

- the need to develop a successful business in the town centre
- to adapt the premises to facilitate a modern and appropriate layout for the hair salon.
- the need to ensure that all work is in keeping with the building.

Use

What will the extension/development be used for and justify why this is necessary?

The use will be extended to the first floor to develop the business.

Amount

What is the proposed size of the extension/development and why is this necessary and appropriate for the setting of the development?

The first floor of the building will be used. There are no external alterations.

Layout

Why have you chosen the layout specified in the planning application and how did you eliminate alternative options?

The layout is appropriate for the operational needs of the hair salon and is a workable layout to support the use.

Scale

Is the scale of the extension/development in keeping with the context of the site and in what way?

There are no external changes. The scale of the use in the town centre is in context of a modern & successful hair salon.

Landscaping

If appropriate, specify the boundary treatments and any landscaping included in the development. You may need to justify why certain materials or planting have been used?

Landscaping is not relevant to this proposal.

Appearance

Specify how the extension/development fits in terms of its appearance and include details of materials to be used.

No external changes proposed.

All works internally are in keeping with a contemporary hair salon.

Access

Explain how the extension/development will be accessed by vehicles and people. You should consider the need for access by all members of society and emergency vehicles.

The access arrangements have not changed.

This is a town centre location and a sustainable location for the use.

Heritage Statement - 40 King Street Clitheroe

Change of use of upper floors from a residential flat to a retail hairdressers as an extension to the existing hairdressers on the ground floor.

Description of Building

The property is a late Victorian mid terrace three storey property, located within the commercial centre of Clitheroe and within the Town Centre Conservation Area. It is a building of townscape merit and currently operates as a hairdressing salon on the ground floor with a vacant residential flat on the first and second floors.

The building is of coursed natural stone with stone quoins and natural stone surrounds to the upper floor windows, which are of modern mock sash style. A modern but sympathetic shop front has been installed and there are no remaining features of the original shop frontage.

There are no specific features of architectural interest either internally or externally, but the building contributes positively to the overall character and appearance of the shopping street and the town centre as a whole.

The Proposal

The proposal will have no impact on the appearance or character of the building as there are no changes either internally or externally proposed.

The change of use will bring the upper floors back into viable and active use which will secure the long term future and maintenance of the building. This will contribute to the vitality and viability of the town centre and make a positive contribution to the character and appearance of the town centre and Conservation Area.
