17th October 2012

Chipping Parish Council

Planning Application 3/201 20863 P

Adhering to the results of the survey carried out for the Chipping Village Plan, Chipping Parish Council supports the promotion and use of renewable energy in this area.

On careful study of the plans proposing to erect a Wind Turbine at
Handlesteads Farm
Collins Hill
Chipping
PR3 2WQ

Councillors considered it would have minimal visual impact to the nearest residential buildings, and would be slightly visible from the village.

Councillors noted that support for this plan did not form a precedent for any other wind turbine plans should they be forth coming, as they would be considered individually.

Yours Sincerely Barbara Green Clerk.C.P.C.
