Colin

I have no objection to this proposal, subject to the following conditions:

1. The access improvements detailed on Drawing No.002 shall be completed before any development work takes place within the site. Reason: To ensure adequate access for construction traffic and in the interests of highway safety.
2. The access driveway extending from the highway boundary for the length of the widened section shall be appropriately paved in tarmacadam, concrete, block pavements, or other approved materials. Reason: To prevent loose surface material from being carried onto the public highway thus causing a potential source of danger to other road users.

Regards
