DESIGN AND ACCESS STATEMENT

320121025 P

RE: APPLICATION TO ERECT BUILDINGS TO SHELTER HORSES OR THEIR PROVISIONS ON LAND TO THE REAR OF 'THE STABLES', PRESTON ROAD, LONGRIDGE. PR3 3BD

This statement has been prepared in support of the application for Full Planning Permission for the erection of a stable building comprising of 3 stables, a tack room and a feed store together with a hardstanding to the front of the stables. This application is to replace an existing building, which Full Planning Permission had been granted, Reference number 3/97/0524/P & 00/583, as this building is due to be demolished directly as a result of a new housing development on its site.

APPLICATION SITE APPRAISAL

The application site is currently a fairly flat field with the land rising slightly. It is a large open space surrounded by hawthorn hedge and fencing.

The application site is accessed from the existing farm track adjacent to Grimbledeston Farm and The Stables.

DESIGN PROPOSAL

Overall, the applicant aims to achieve a high standard of design and the following considerations have therefore been taken into account.

1. The stables will provide accommodation for horses. The tack and store rooms for their provisions.
2. The stables have been sited close up to the existing boundary so as to reduce its impact on the open character of the field. It is suggested that this presents the least obtrusive location within the whole application, and does not harm or intrude upon existing views.
3. The proposal creates a traditional rural building using timber to the external walls together with onduline roofing.
4. Manure will be stored in a sealed trailer on the hardstanding at the front of the stables to ensure no pollution will be caused to the ground conditions. The manure will be removed on a regular basis and disposed of in an appropriate manner.

HIGHWAY CONSIDERATIONS

There are no Highway considerations relevant to this proposal, as the existing access is to be used.

TREES AND HEDGES

All trees and hedges to the whole of the application site are to be retained as existing. It is suggested that no further landscaping is necessary.

FLOODING

There are no flooding implications for this site.

ACCESS

This application is in a sustainable location as it is sited well behind 'The Stables' and is for recreational purposes only. The proposal will not lead to any increase in traffic therefore it is considered to be sustainable use of the site.

CONCLUSION

Overall, therefore, the enclosed application presents a scheme that is appropriate to the setting of the site, with the intention to provide a proposal with a sympathetic scale, form and massing and the use of appropriate materials.
