3. Description of the Proposal

Please describe the proposed development including any change of use:

Has the building, work or change of use already started? Yes No

4. Site Address Details

Full postal address of the site (including full postcode where available)

Description:

House:	<input type="text"/>	Suffix:	<input type="text"/>
House name:	Crow Wood		
Street address:	Ward Green Lane		
	Ribchester		
Town/City:	Preston		
County:	<input type="text"/>		
Postcode:	PR3 3ZA		

Description of location or a grid reference
(must be completed if postcode is not known):

Easting:	363183
Northing:	437032

5. Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

Yes No

6. Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicle access proposed to or from the public highway?

Yes No

Is a new or altered pedestrian access proposed to or from the public highway?

Yes No

Are there any new public roads to be provided within the site?

Yes No

Are there any new public rights of way to be provided within or adjacent to the site?

Yes No

Do the proposals require any diversions/extinguishments and/or creation of rights of way?

Yes No

7. Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

Yes No

Have arrangements been made for the separate storage and collection of recyclable waste?

Yes No

8. Authority Employee/Member

With respect to the Authority, I am:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

Do any of these statements apply to you?

Yes No

9. Materials

Please state what materials (including type, colour and name) are to be used externally (if applicable):

Walls - description:

Description of existing materials and finishes:

N/A

Description of proposed materials and finishes:

Upper walls profile 6 steel sheets in Juniper Green, lower walls concrete block or panels.

Roof - description:

Are you supplying additional information on submitted plan(s)/drawing(s)/design and access statement? Yes No

If Yes, please state references for the plan(s)/drawing(s)/design and access statement:

Ground plans and Elevations, Location Plan, Agricultural Justification, Design and Access Statement.

10. Vehicle Parking

Please provide information on the existing and proposed number of on-site parking spaces:

Type of vehicle	Existing number of spaces	Total proposed (including spaces retained)	Difference in spaces
Cars	0	0	0
Light goods vehicles/public carrier vehicles	0	0	0
Motorcycles	0	0	0
Disability spaces	0	0	0
Cycle spaces	0	0	0
Other (e.g. Bus)	0	0	0
Short description of Other			

11. Foul Sewage

Please state how foul sewage is to be disposed of:

Mains sewer

Package treatment plant

Unknown

Septic tank

Cess pit

Other

N/A Straw bedded

Are you proposing to connect to the existing drainage system?

Yes No Unknown

12. Assessment of Flood Risk

Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and 3 and consult Environment Agency standing advice and your local planning authority requirements for information as necessary.)

Yes No

If Yes, you will need to submit an appropriate flood risk assessment to consider the risk to the proposed site.

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?

Yes No

Will the proposal increase the flood risk elsewhere?

Yes No

How will surface water be disposed of?

Sustainable drainage system

Main sewer

Pond/lake

Soakaway

Existing watercourse

13. Biodiversity and Geological Conservation

To assist in answering the following questions refer to the guidance notes for further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.

Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, OR on land adjacent to or near the application site:

a) Protected and priority species

Yes, on the development site Yes, on land adjacent to or near the proposed development No

b) Designated sites, important habitats or other biodiversity features

Yes, on the development site Yes, on land adjacent to or near the proposed development No

c) Features of geological conservation importance

Yes, on the development site Yes, on land adjacent to or near the proposed development No

14. Existing Use

Please describe the current use of the site:

Agricultural Land

Is the site currently vacant?

Yes No

Does the proposal involve any of the following?

If yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated?

Yes No

Land where contamination is suspected for all or part of the site?

Yes No

A proposed use that would be particularly vulnerable to the presence of contamination?

Yes No

15. Trees and Hedges

Are there trees or hedges on the proposed development site?

Yes No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

Yes No

If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of your local planning authority. If a Tree Survey is required, this and the accompanying plan should be submitted alongside your application. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to construction - Recommendations'.

16. Trade Effluent

Does the proposal involve the need to dispose of trade effluents or waste?

Yes No

17. Residential Units

Does your proposal include the gain or loss of residential units?

Yes No

18. All Types of Development: Non-residential Floorspace

Does your proposal involve the loss, gain or change of use of non-residential floorspace?

Yes No

19. Employment

320121055P

If known, please complete the following information regarding employees:

	Full-time	Part-time	Equivalent number of full-time
Existing employees	1	2	0
Proposed employees	0	0	0

20. Hours of Opening

If known, please state the hours of opening for each non-residential use proposed:

Use	Monday to Friday		Saturday		Sunday and Bank Holidays		Not Known
	Start Time	End Time	Start Time	End Time	Start Time	End Time	

21. Site Area

What is the site area?

22. Industrial or Commercial Processes and Machinery

Please describe the activities and processes which would be carried out on the site and the end products including plant, ventilation or air conditioning. Please include the type of machinery which may be installed on site:

Is the proposal for a waste management development? Yes No

23. Hazardous Substances

Is any hazardous waste involved in the proposal? Yes No

24. Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land? Yes No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact? (Please select only one)

The agent The applicant Other person

320121065P

In Support of a Planning Application for

Multi Purpose Agricultural Building

**Mr T Robinson
Crow Wood
Land at Ward Green Lane
Ribchester**

**Mrs Julia Pye
Hill Crest Farm
Startifants Lane
Chipping
Preston
PR3 2NP**

Amount

The applicant is applying for one multi purpose agricultural building to be used in conjunction with the applicants existing farming enterprise. The applicant farms in excess of 48 hectares of which he owns 7 hectares on Crow Wood Ward Green Lane, and also 2 hectares of land at his farm at Springs Farm, Dilworth Bottoms, Longridge.

In addition to the land the applicant also rents some traditional shippens and barns at Setters Farm which is in close proximity to the application site, where all the feed and bedding is stored and will continue to do so if this application is approved.

Due to the small size the applicants land surrounding his farm and constraints within the site there is no room on the site to erect a new building in addition to the small livestock building he has on site.

Use

The applicant farms 550 breeding ewes, 160 gimmer lambs and 40 tups which are pedigree Texel and Beltex. The applicant breeds all his own replacements and also sells approximately 30 tup's per year for breeding purposes. All his castrated male lambs and lambs not fit for breeding purpose are sold as fat in the local auction marts this number is between 800-1000 each year depending on the season. The applicant lambs his sheep in batches of 70 from January onwards.

The applicant has been involved with farming all his life and worked alongside his father and brothers on the family farm up until 15 years ago when the partnership was dissolved. The applicant started his sheep farm with 30 breeding ewes and has significantly increased his numbers to those he has currently. The applicant is FABBLE registerd and is on the Entry Level Stewardship Scheme.

The applicant makes approximately 1000 bales of silage / haylage each year although this year due to the weather this has decreased to 600. The bales are kept at Setters Farm which is just down the road from the applicants land, and he intends to continue this if the proposed building is approved.

The applicant needs the proposed building to give him the much needed indoor space to lamb his sheep especially during January – March when the weather can seriously affect his sheep. He has been struggling over recent years with the miss match of buildings he has and it is now causing him problems.

It makes sense for the applicant to erect a building on land he owns with adequate access to it centrally to the two units he has, unfortunately he is unable to build any further buildings at the farm due to constraints on the site, (size).

This building will not only allow him to lamb his breeding ewes under cover but will also allow him space to fatten lambs in a purpose built environment centrally within his holding.

The buildings at Setters Farm all traditional shippens and barns and are outdated for modern farming practices and causing the applicant excess work and labour costs.

Layout

The proposed building will be sited to the west of the site 20 meters away from the existing fence line to allow the applicant to access the rear of the building and maintain the land behind it. The internal layout of the building will be open plan with hurdles and gates within the building for the applicant to pen his sheep due to his requirements at different times of the year.

Scale

The scale of the building is in keeping with the parcel of land and the amount of sheep the applicant farms. Its eaves and ridge height along with its position will ensure that it will not cause any detrimental impact on the surrounding area nor be prominent

Landscaping

The applicant is proposing to construct 4.54 meters of compacted hardcore in front of the building to allow him to feed his sheep at the front of the building, which will ensure that the grass is not churned up or excessively poached, which would mean that he wouldn't comply with his cross compliance.

Appearance

The appearance of the building has been carefully thought about in terms of being sympathetic to the area whilst being fit for purpose. The applicant is proposing to provide a dark green roof and side panels to ensure the building blends into the site to make it as inconspicuous as possible. However the

building will be a modern portal framed building which will have adequate ventilation and space allowances for his sheep.

Access

Access to the site will be from the existing field access off Ward Green Lane which is adequate. There is plenty of room within this site for the turning and manovering of vehicles and room for emergency services if they were ever required on site.
