**Proposed Development of the Towneley road Auction room site.
Towneley Road
Longridge**

Design and Access Statement

DEVELOPMENT

Proposed demolition of the former Towneley road Auction room and construction of 9 number Light industrial units. The development also incorporates car parking and planting areas.

BUILDING USE

The buildings will be light industrial units.

AMOUNT

The internal floor area of Units 1 - 5 80 sq.m.

The internal floor area of Unit 6 - 9 70 sq.m.

The dimensions of the unit blocks is – 59.8 m x 7.2 m

18.3 m x 8.6 m

21m (max) x 8.6 m

LAYOUT

The layout represents the most economical use of the space whilst incorporating car parking spaces on site. The off street parking will cause minimal disruption to the adjacent houses/businesses. Pedestrian access is from Towneley Road.

SCALE OF DEVELOPMENT

The scale of the development is set out on drawing 4097-3. The scale of the units is similar to the adjacent businesses, therefore in keeping with the context of the site.

APPEARANCE

The materials used are in keeping with the surrounding area and provide cohesion between the proposed building and existing buildings in the area. The positioning of the buildings has minimal impact on the street scape whilst tying in with the terraced nature of the adjacent properties.

ACCESS

The vehicular access is off Towneley road, as is the pedestrian access.

Subject: RE - Towneley Road Auction Rooms Pre-Application Enquiry, Longridge

REF. NO. RV\2011\ENQ\00380

Dear Duncan,

I know we discussed this over the phone and in the Council Offices, but here is a more formal response to the above enquiry.

From the information supplied the developer wishes to explore the development of 10 starter business units of 1000 sq ft each, together with related car parking and a central access road on a site in the centre of Longridge. Auction rooms and a builders yard currently occupy the site.

The proposal does not appear to result in the loss of any current employment land, of which Longridge has a limited supply and which DWLP policy EMP11 would discourage. It would also appear to involve uses compatible with a town centre location such as this within national planning PPS4.

In conclusion I consider that, in principle, this proposal could be supported.

With regards to the views from the LCC Highways Officer, he notes that the scheme proposed is possibly too intensive a use of the site, with inadequate parking provision. The spaces shown are substandard dimensions and would not allow for loading and manoeuvring of medium and larger commercial vehicles without compromising access to other units, and given the surrounding streets are extensively used for on-street parking, parking provision within the site is more critical. Also some form of parking restrictions around the proposed access point and at the Warwick St / Towneley Road junction would be beneficial to road safety and improve access to the site.

Among other issues that may come to light, what would be the type(s) of "business" the developer is considering as they may have implications in relation to potential impacts on residential amenity. I am assuming that the principle uses would fall into a B1 or B2 class they may also wish to consider retail? Not to say this is a problem, but without knowing the mix on site, it is hard to advise on further potential issues.

Should you wish to discuss the matter further, please do not hesitate to contact me on this direct e-mail address or on my direct number below, however please note there may be an additional fee required. Please note, my comments are made for your information and guidance only and without prejudice to any recommendation made on any subsequent application or its ultimate determination thereof.
