Application for Planning Permission. Town and Country Planning Act 1990

You can complete and submit this form electronically via the Planning Portal by visiting www.planningportal.gov.uk/apply

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Please complete using block capitals and black ink

It is important that you read the accompanying guidance notes as incorrect completion will delay the processing of your application.

1. Applicant Name and Address

Title:	MRS	First name:	SHIRLEY.
Last name:	KNIGHT.		
Company (optional):			
Unit:		House number:	2
		House suffix:	
House name:			
Address 1:	HALTON PLACE		
Address 2:			
Address 3:			
Town:	LANGRIDGE.		
County:	LANCS.		
Country:			
Postcode:	PR3 3RJ.		

2. Agent Name and Address

Title:	MR	First name:	ALLAN
Last name:	LLOYD-HADDOCK		
Company (optional):	ALH DESIGN SERVICES		
Unit:		House number:	
		House suffix:	
House name:	BARLEY COTTAGE		
Address 1:	BREWERY STREET		
Address 2:			
Address 3:			
Town:	LANGRIDGE		
County:	LANCS.		
Country:			
Postcode:	PR3 3NB		

3. Description of the Proposal

Please describe the proposed development, including any change of use:

RE SUBMISSION OF OUTSTANDING APPLICATION NO 3/2013/0136).
ERECTOR OF NEW 3 BED ATTACHED HOUSE ON SIDE OF
EXISTING PROPERTY, IN LIEU OF PREVIOUSLY APPROVED
TWO STOREY SIDE EXTENSION (APP NO 3/2012/0664)

Has the building, work or change of use already started?

☐ Yes

☒ No

If Yes, please state the date when building,
work or use were started (DD/MM/YYYY):

(date must be pre-application submission)

Has the building, work or change of use been completed?

☐ Yes

☒ No

If Yes, please state the date when the building, work
or change of use was completed: (DD/MM/YYYY):

(date must be pre-application submission)

4. Site Address Details

Please provide the full postal address of the application site.

Unit: House number: House suffix: House name: Address 1: Address 2: Address 3: Town: County: Postcode (optional):

Description of location or a grid reference (must be completed if postcode is not known):

Easting: Northing:

Description:

ERECTION OF HOUSE IN GARDEN AREA.

5. Pre-application AdviceHas assistance or prior advice been sought from the local authority about this application? ☒ Yes ☐ No

If Yes, please complete the following information about the advice you were given. (This will help the authority to deal with this application more efficiently).

Please tick if the full contact details are not known, and then complete as much as possible: ☐

Officer name:

MR G. THORPE

Reference:

EMAIL + TELEPHONE CONVERSATION

Date (DD/MM/YYYY): (must be pre-application submission)

2006 / MARCH 13

Details of pre-application advice received?

SUGGESTED TO RE-DESIGN WITH A SET BACK FOR PRIVACY DISTANCES AND WITHDRAWN PREVIOUS APPLICATION

6. Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicle access proposed to or from the public highway?

☐ Yes ☒ No

Is a new or altered pedestrian access proposed to or from the public highway?

☒ Yes ☐ No

Are there any new public roads to be provided within the site?

☐ Yes ☒ No

Are there any new public rights of way to be provided within or adjacent to the site?

☐ Yes ☒ No

Do the proposals require any diversions /extinguishments and/or creation of rights of way?

☐ Yes ☒ No

If you answered Yes to any of the above questions, please show details on your plans/drawings and state the reference of the plan (s)/drawings(s)

SEE PROPOSED SITE PLAN INDICATING PEDESTRIAN ACCESS

7. Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

☒ Yes ☐ No

If Yes, please provide details:

BIN STORE IN GARDEN AREA AND L.A. REFUSE COLLECTION BINS

Have arrangements been made for the separate storage and collection of recyclable waste?

☒ Yes ☐ No

If Yes, please provide details:

SEPARATE BINS AS PROVIDED BY L.A.

8. Authority Employee / Member

With respect to the Authority, I am: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member

Do any of these statements apply to you? ☐ Yes ☒ No

If Yes, please provide details of the name, relationship and role

9. Materials

320130454P

If applicable, please state what materials are to be used externally. Include type, colour and name for each material:

	Existing (where applicable)	Proposed	Not applicable	Don't Know
Walls	FACING BRICK + RENDER	TO MATCH EXISTG.	☐	☐
Roof	TILED ROOF	TO MATCH EXISTG.	☐	☐
Windows	WHITE UPVC.	TO MATCH EXISTG.	☐	☐
Doors	WHITE UPVC	TO MATCH EXISTG.	☐	☐
Boundary treatments (e.g. fences, walls)	1.8M HIGH CLOSE BORDED FENCE	TO MATCH EXISTG.	☐	☐
Vehicle access and hard-standing	CONCRETE APRON		☒	☐
Lighting			☐	☐
Others (please specify)			☐	☐

Are you supplying additional information on submitted plan(s)/drawing(s)/design and access statement?

☒ Yes

☐ No

If Yes, please state references for the plan(s)/drawing(s)/design and access statement:

SEE ATTACHED, LOCATION PLAN, EXISTING SITE PLAN, EXISTING FLOOR
PLANS, EXISTING ELEVATIONS, PROPOSED SITE PLAN, PROPOSED PLANS,
PROPOSED ELEVATIONS + DESIGN + ACCESS STATEMENT.

10. Vehicle Parking

Please provide information on the existing and proposed number of on-site parking spaces:

Type of Vehicle	Total Existing	Total proposed (including spaces retained)	Difference in spaces
Cars	4	4	0
Light goods vehicles/ public carrier vehicles			
Motorcycles			
Disability spaces			
Cycle spaces			
Other (e.g. Bus)			
Other (e.g. Bus)			

11. Foul Sewage

Please state how foul sewage is to be disposed of:

- ☒ Mains sewer ☐ Cess pit
☐ Septic tank ☐ Other
☐ Package treatment plant

Are you proposing to connect to the existing drainage system? ☒ Yes ☐ No

If Yes, please include the details of the existing system on the application drawings and state references for the plan(s)/drawing(s):

TO BE PROVIDED AT BUILDING
REGULATION STAGE

12. Assessment of Flood Risk

Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and 3 and consult Environment Agency standing advice and your local planning authority requirements for information as necessary.)

☐ Yes ☒ No

If Yes, you will need to submit a Flood Risk Assessment to consider the risk to the proposed site

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)? ☐ Yes ☒ No

Will the proposal increase the flood risk elsewhere? ☐ Yes ☒ No

How will surface water be disposed of?

- ☐ Sustainable drainage system ☐ Existing watercourse
☐ Soakaway ☐ Pond/lake
☒ Main sewer

13. Biodiversity and Geological Conservation

To assist in answering the following questions refer to the guidance notes for further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals

Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

14. Existing Use

Please describe the current use of the site:

VACANT GARDEN AREA.

Is the site currently vacant? ☒ Yes ☐ No

If Yes, please describe the last use of the site:

GARDEN AREA.

When did this use end (if known)?
DD/MM/YYYY

(date where known may be approximate)

Does the proposal involve any of the following?
If yes, you will need to submit an appropriate contamination assessment with your application

Land which is known to be contaminated? ☐ Yes ☒ No

Land where contamination is suspected for all or part of the site? ☐ Yes ☒ No

A proposed use that would be particularly vulnerable to the presence of contamination? ☐ Yes ☒ No

15. Trees and Hedges

Are there trees or hedges on the proposed development site? ☐ Yes ☒ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? ☐ Yes ☒ No

If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of your local planning authority. If a Tree Survey is required, this and the accompanying plan should be submitted alongside your application. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to construction - Recommendations'.

16. Trade Effluent

Does the proposal involve the need to dispose of trade effluents or waste? ☐ Yes ☒ No

If Yes, please describe the nature, volume and means of disposal of trade effluents or waste

17. Residential Units (Including Conversion)

Does your proposal include the gain, loss or change of use of residential units?
If Yes, please complete details of the changes in the tables below:

☐ Yes☐ No**Proposed Housing**

26. Planning Application Requirements - Checklist

Please read the following checklist to make sure you have sent all the information in support of your proposal. Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the Local Planning Authority has been submitted.

The original and 3 copies of a completed and dated application form:

The correct fee:

The original and 3 copies of the plan which identifies the land to which the application relates drawn to an identified scale and showing the direction of North:

The original and 3 copies of a design and access statement, if required (see help text and guidance notes for details):

The original and 3 copies of the completed, dated Ownership Certificate (A, B, C, or D - as applicable):

The original and 3 copies of other plans and drawings or information necessary to describe the subject of the application: ☒

The original and 3 copies of the completed, dated Article 12 Certificate (Agricultural Holdings):

320130454P

27. Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information.

Signed - Applicant:

Or signed - Agent:

Date (DD/MM/YYYY):

(date cannot be pre-application)

DESIGN AND ACCESS STATEMENT PRO-FORMA

From the 10 August 2006, planning applications relating to certain types of developments are required to be submitted with a design and access statement. When submitting an application, failure to provide a design and access statement of sufficient standard may result in a delayed registration of the application

What Applications Need to be Accompanied by a Design and Access Statement?

Most planning applications have to be accompanied by a design and access statement, the exceptions being:

- material change in the use of land or buildings, unless it also involves operational development;
- engineering or mining operations;
- development of an existing dwellinghouse, or development within the curtilage or a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse, where no part of that dwellinghouse or curtilage is within a designated area or is a listed building. 'Designated Areas' include: • Conservation Areas; • Sites of Special Scientific Interest (SSSI); and • Areas of Outstanding Natural Beauty (AONB).

Process

What factors have you considered when deciding upon the use, design, scale, layout and materials used in the proposed development?

PRIORE TO APPLYING FOR THE NEW HOUSE THE CLIENT RECENTLY RECEIVED APPROVAL FOR A TWO STOREY SIDE EXTENSION, HOWEVER THIS HAS NOW BEEN SUPERSEDED BY THIS LATEST APPLICATION, AND WHICH IS IN ALIGN WITH THAT OF SA. HOUSEY CLOSE FOR, SCALE, ETC, MATERIALS ARE TO MATCH EXIST SO AS TO PROVIDE FLUIDITY.

Use

What will the extension/development be used for and justify why this is necessary?

THE DEVELOPMENT WILL BE RESIDENTIAL AND WILL FORM A STEP INTO THE PROPERTY LADDER FOR THE CLIENTS SON, DUE TO THE FINANCIAL CLIMATE WE ARE IN AT PRESENT

Amount

What is the proposed size of the extension/development and why is this necessary and appropriate for the setting of the development?

THE DEVELOPMENT SIZE IS SIMILAR TO THAT OF SA HOUSEY ROAD, AND SIZED AS PER THE EXIST PLAN. THIS IS IN ALIGN WITH THE PROPERTY ALREADY ON SA WITH REGARDS TO SCALE AND BOUNDARY PROXIMITIES ETC.

3 20130454 P

Layout

Why have you chosen the layout specified in the planning application and how did you eliminate alternative options?

THE LAYOUT WAS CHOSEN FOR ITS SIMPLICITY AND UNIFORMITY TO FIRST ALREADY APPROVED AND ALREADY BUILT, BEING KEEPING THE ELEVATIONS IN THE SAME ALIGNMENT PROVIDES FOR CONTINUITY.

Scale

Is the scale of the extension/development in keeping with the context of the site and in what way?

AGAIN THE SCALE OF THE DEVELOPMENT IS IN ALIGN WITH THAT ALREADY APPROVED AT SA HURBY ROAD, AND ALSO IN ALIGN WITH THE TWO STOREY EXTENSION APPROVED RECENTLY.

Landscaping

If appropriate, specify the boundary treatments and any landscaping included in the development. You may need to justify why certain materials or planting have been used?

NOT APPLICABLE THE SITE IS CONTAINED WITHIN THE EXISTING DOMESTIC CURTLEDGE.

Appearance

Specify how the extension/development fits in terms of its appearance and include details of materials to be used.

MATERIALS SYMPATHETIC TO THAT ALREADY ON SITE ARE TO BE USED, SO THAT IT IS IN KEEPING WITH THE EXISTING.

Access

Explain how the extension/development will be accessed by vehicles and people. You should consider the need for access by all members of society and emergency vehicles

SEE EXISTING AND PROPOSED FLOOR PLANS. CAR PARKING IS ALREADY ON SITE FOR 4 SPACES. THE ONLY ADDITION IS A PEDESTRIAN ACCESS.

BAT SURVEY & REPORT

Survey Brief

1. To inspect buildings, assess the value of the site for bats, and compile a report prior to a Planning Application being submitted.
2. The report will identify if bats have ever used the buildings at any time, or not as the case may be.
3. If bats have used the buildings, assess the importance of the site for bats and bat conservation.

Limitations of the report

1. The aim of the survey is to prove use by bats, but does not guarantee their absence.
2. Surveys undertaken when bats are hibernating may have to be re-assessed during summer months when bats are most active.
3. External walls and internal rooms are inspected from ground level only. Roof voids, attics and lofts will only be inspected when safe access is possible. Building's whose structure is unsafe in any way, will only be inspected from a safe distance with the use of a pair of binoculars.
4. A bat detector will be used in all cases but daytime visits may only produce limited success. When buildings are inspected during winter months, a bat detector will have very limited results.
5. Buildings with no signs of bats on the date of the survey, may be used by individuals or small numbers of bats, in subsequent weeks, months or years.
6. Thorough inspection should reveal whether bats have been present during previous years. Small bats, e.g. pipistrelles, leave evidence of occupation in small inaccessible crevices which may be extremely difficult to detect if the bats are not present when the survey is being conducted.

BAT SURVEY & REPORT

3 20130454 P

Objectives of the report:

1. To thoroughly inspect all buildings, and record any findings indicating the presence or absence of bats.
2. To make recommendations when the presence of bats are found.

Survey Guidelines

This survey follows guidelines recommended by the Bat Conservation Trust (BCT Bat Surveys, Good Practice Guidelines, 2007) and Natural England (Survey objectives, methods and standards- Bat Mitigation Guidelines, 2004) and JNCC Bat Workers Manual.

Survey Methods

The purpose of the survey is to look for evidence confirming that bats use, or have used the buildings for resting, feeding, roosting or winter hibernacula, or not as the case may be.

Evidence of use will include the following;

- 1 Presence of live or dead bats.
- 2 Bat droppings.
- 3 Moth and insect wings and remains.
- 4 Faint scratch marks on roof timbers.
- 5 Grease staining marks on roof timbers.
- 6 Odour of bats.

Evening Surveys

For evening surveys, an ultra-sound receiver is used, tuned to different frequencies to pick up the noises emitted by flying bats. Bat emergence time may start half an hour before sunset, to one hour after. Fine tuning the 'bat detector' can be a very accurate way of identifying the presence of bats emerging from roof areas where human access is limited or impossible.

Time spent on suitable evenings, will confirm or not the presence of bats, and bat species identification should be possible if bats are present.

Surveying Equipment

Re-chargeable torches, one at 1 million, the other at ½ million candlepower.

8 x 32 Opticron binoculars.

Bat box 'duet' bat detector, a heterodyne type sonar receiver.

Bat Scanner, a heterodyne type instrument which actively scans ultrasound for bats.

Petzl headlamp torches.

A variety of folding aluminium ladders.

Telescopic inspection mirrors, large and small.

Bat detection methods

The size of the site or the complexity of the buildings may make daytime searches for bats very difficult. Subsequently, the detection of the presence of bats is undertaken by night visits and relies on the use of a bat detector, an instrument that picks up the ultra-sound emitted by bats, converting it into a sound audible to the human ear. Species may be identified by the frequency on which they 'transmit' and by the sonar graph of their sounds.

Evening surveys

Any survey is reliant on the scope and depth of the information sourced. In an attempt to obtain more detail, an evening survey may be conducted around the site or buildings. To give greater coverage and scope, the survey is normally conducted by two persons. Ultra-sound bat detectors were used at varying frequencies throughout the duration of the survey, to pick up noises emitted by bats.

Analysis of results

Dependent on the results indicated by the bat detector, further inspection of the site may be required within the buildings to confirm any findings. Negative results from the bat detector will only indicate that bats are not present at the time of the survey.

Bat habits

Bats frequently use trees and building for feeding. Insects are found at all sites, and their presence attracts bats, which may travel up to five kilometres or more, to feast in insect rich habitat. The presence of feeding bats does not indicate that the roost is close by, and this survey is undertaken to establish whether bats use any of the structures on the site as a roost.

Adverse weather

Adverse weather conditions affect the ability to collect data on night visits. Cold nights, strong wind and heavy rain may prevent bats from flying, and numbers of insects may be likewise very limited. Subsequent visits should provide sufficient data and prove positive or negative results.

Risk Assessment

The level of probability that Bats are using the property is calculated on the evidence found.

Low risk:

No evidence of use by bats was found.

Medium risk:

Implies that the presence or use by Bats has been identified, and the building is probably used as a feeding site.

High risk:

Identifies that Bats use the property, droppings are found and a roost is confirmed or suspected, even if bats are not present at the time of the survey.

Comments: There are no access points for bats to enter the building.

Internal Conclusions:

There are no signs of bats using the premises for roosting.

Risk Assessment: Low

BAT EMERGENCE SURVEY & REPORT

Date: 19th July 2012

Start Time: 21.00 hours

End Time: 22.30 hours

3 20130454 P

Weather:

The evening was overcast with a fine drizzle. There was no breeze and the temperature was 13°C.

Bat Suitability Evening:

The evening was a good evening for foraging bats with flying insects and observed outside the building. Many swifts were flying and feeding overhead.

Survey Details:

The survey was conducted using a 'bat detectors' set at 45Khz. The bat detector was occasionally tuned to 55Khz to allow for different species of bat sonar. Continuous observation of the building was achieved by surveying the gable end of the property.

Survey Findings:

Despite the evening being most suitable for foraging bats, no bats were detected or seen. No bats were detected or observed emerging from the property under observation.

Evaluation of the Survey Results:

There was no evidence of any bats emerging from the building.

Risk Assessment:

Low.

BAT SURVEY & REPORT

Bats and the Law

It may not be possible to determine whether the building is used as a maternity roost or just a resting place, but the fact that bat activity has been recorded, means that any work that disturbs or impacts on the colony within the buildings will require a license. Additional survey work may be necessary, especially in the evenings or early morning to determine the exact extent of use by bats and the access points that are used. Deliberate disturbance during the breeding season, the exclusion of bats and the destruction of a bat roost is now a criminal offence under the Conservation (Natural Habitats &c.) (Amendment) Regulations 2007. The onus lies on the applicant to satisfy him/her that no offence will be committed if and when the development goes ahead.

Natural England now advises, *"Operations to known breeding sites should be timed to avoid the months of June, July and August if possible, the best times for building or re-roofing operations are spring and autumn"*.

How to proceed when bats are found

Depending on the extent of the proposed works, a license may be required before any work can start. If the work does not impact on the bats in any way, ie, bats are not present and the habitat and access points are not being affected, then the work may probably be done without a licence. Each site has different requirements and Natural England have the final say.

When European Protected Species are present and the works cannot be done at a time when they are absent, as a licensed bat person, I can apply on your behalf for a licence to enable the works to proceed. The granting of a license is not guaranteed, but when the application is a matter of health and public safety and supporting mitigation enhances the habitat for continued use by bats, there is a good likelihood that the license will be approved. Natural England requires a minimum six weeks to process any licence application. Mitigation will include detailed information for the retention, enhancement and preservation of the population of European Protected Species in the locality.

General recommendations:

Being aware of how bats move from site to site, and the possibility that bats may occur in any building, the following points should help developers.

1. Bats may use buildings at any time of the year for feeding or refuge.
2. Work to the roof should be undertaken when bats are free flying, generally early March to late November.
3. Care must be taken when removing existing roof beams and associated stonework.
4. During completion of roof works, bat access points may be built into the new structure.
5. Pointing of walls should not be carried out between mid-November to early March to avoid entombing bats, which may be hibernating within.
6. If any timber treatment is carried out, only chemicals safe for bats should be used. Any new timber used should be treated using the CCA method (Copper, Chrome Arsenic), which is safe for bats.

I shall be available to advise and oversee the above points at any time, if requested.

Should bats be found, work must cease immediately in that area and then please contact: **Denís Lambert** on 01772 783322 or 07813 140682 for advice.
