13. Biodiversity and Geological Conservation

To assist in answering the following questions refer to the guidance notes for further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals

Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

14. Existing Use

Please describe the current use of the site:

Sixth Form

Is the site currently vacant? ☐ Yes ☒ No

If Yes, please describe the last use of the site:

When did this use end (if known)?

DD/MM/YYYY

(date where known may be approximate)

Does the proposal involve any of the following?
If yes, you will need to submit an appropriate contamination assessment with your application

Land which is known to be contaminated? ☐ Yes ☒ No

Land where contamination is suspected for all or part of the site? ☐ Yes ☒ No

A proposed use that would be particularly vulnerable to the presence of contamination? ☐ Yes ☒ No

15. Trees and Hedges

Are there trees or hedges on the proposed development site? ☐ Yes ☒ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? ☐ Yes ☒ No

If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of your local planning authority. If a Tree Survey is required, this and the accompanying plan should be submitted alongside your application. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to construction - Recommendations'.

16. Trade Effluent

Does the proposal involve the need to dispose of trade effluents or waste? ☐ Yes ☒ No

If Yes, please describe the nature, volume and means of disposal of trade effluents or waste

17. Residential Units (Including Conversion)

Does your proposal include the gain, loss or change of use of residential units?
If Yes, please complete details of the changes in the tables below:

1.0 INTRODUCTION

1.1 Background

- 1.1.1** This Heritage Statement has been prepared in support of a Conservation Area consent planning application for the replacement of 5no Crittal windows on the front elevation of the Sixth Form Building at Clitheroe Royal Grammar School, York Street, Clitheroe.

2.0 HERITAGE STATUS

2.1 Listed buildings

2.1.1 The concerned building which is subject to the window replacement is linked to a designated listed building.

2.1.2 The building which has a listing is the 'CLITHEROE ROYAL GRAMMAR SCHOOL FOR BOYS OLD BUILDING and lies to the left of the application structure. Each building is located on the same site.

2.1.3 The building has Grade II listing status and was first listed on 19th May 1950.

2.1.4 The building is listed under list entry number 182873 and is given the following listing description:

YORK STREET 1. 5295 (West Side) Clitheroe Royal Grammar School for Boys Old Building SD 7442 2/19 19.5.50 II GV 2. C18. 2 storeys in stone. Moulded stone eaves cornice with modillions. Slate roof with stone coped gable ends. Stone rusticated quoins and stone plinth. Centre doorway with pediment on consoles above grooved brackets. Rectangular fanlight, 4 windows in the ground storey and 5 above, all plain stone surrounds with later glazing bars. Nos 11 to 23 (odd), Stanworth House and Clitheroe Royal Grammar School for Boys form a group.

2.1.5 A copy of the listing entry is included as appendix CAP1 for reference.

2.1.6 The concerned building, although not listed does fall within the Character Area 3 York Street & Well Terrace Conservation Area. Our application to replace the windows acknowledges this and we are therefore proposing a sympathetic replacement of the existing windows as described later in this document.

3.0 PLANNING POLICY REQUIREMENTS

National Planning Policy Framework

3.1 PPS 5: Planning and the Historic Environment has now been superseded by the National Planning Policy Framework [NPPF]. As such the former now has no weight in the determination of these applications.

3.2 The NPPF states:

"128. In determining applications, local planning authorities should require an applicant to describe the significance of any heritage assets affected, including any contribution made by their setting. The level of detail should be proportionate to the assets' importance and no more than is sufficient to understand the potential impact of the proposal on their significance [our emphasis].

129 Local planning authorities should identify and assess the particular significance of any heritage asset that may be affected by a proposal...

131 In determining planning applications, local planning authorities should take account of:

- the desirability of sustaining and enhancing the significance of heritage assets and putting them to viable uses consistent with their conservation;*
- the positive contribution that conservation of heritage assets can make to sustainable communities including their economic vitality; and*
- the desirability of new development making a positive contribution to local character and distinctiveness."*

3.3 The key elements to take from the NPPF are that although the protection afforded to key heritage assets remains unchanged, the level of detail required for the determination of applications should reflect the particular element of the asset and the potential for the works to impact upon the asset as a whole.

4.0 IMPACT OF DEVELOPMENT

Direct works to listed structure

- 4.1 There are no proposed direct works to the listed bridge and indeed this falls outside the planning application boundary.

Impact upon existing structure falling within the Character Area 3 York Street & Well Terrace Conservation Area.

- 4.2 The existing windows featured on the elevation are single glazed Crittal, leaded windows featuring low and high level openers.

View of the existing elevation featuring the 5no identical windows to be replaced as can be seen between the two protruding entrance areas.

- 5.1 The works to the building are required firstly as a result of the deterioration of the windows due to their age water penetration and secondly the consequence of this is that the building suffers from a large amount of heat loss. The water ingress causes damage to the internal fabric while the single glazing results in a cold internal environment for its users.
- 5.2 The purpose of the works is therefore to undertake window replacement of the existing Crittal windows in order to adequately seal the building and prevent any further damage to the internal fabric of the library.
- 5.3 The works consist of removing and replacing 5no original single glazed windows. New windows will be fitted will replicate those previously removed in terms of external and internal appearance together with matching the existing opening lights. The new windows are to be powder coated black Crittall framed double glazed window units.

6.0 Impact upon Conservation Area

- 6.1 The impact of the proposed works will be minimal and will not harm the historical character or appearance of the existing building or adjacent listed building. However, if these works were not to take place the impact of the water ingress would cause significant damage to the building both internally and externally.
- 6.2 In respect of the works, the building itself will retain all of its originally features with the exception of the new windows.
- 6.3 The proposed works have been designed in a manner that compliments but does not distract from the original character of the building using materials that best match the historic design of the building.
- 6.4 The works overall are therefore considered to have a highly positive impact upon the building and surrounding area.

7.0 Key Principles

- 7.1 The key principle of the works is to replace those elements that have suffered damage and will prevent any further damage occurring to the building.

8.0 Appearance

- 8.1 Materials for the new windows include black Crittall window frames with clear leaded double glazed window units. All windows that are to be re-furbished will be done so using leaded clear glass.

9.0 Access

- 9.1 Access to the site will not be alerted

10.0 Summary

- 10.1 This statement has addressed the legislative requirements of PP5 and Design and Access statements. It has considered the features that make the building significant to the area and explained the rationale behind the works that are proposed.
- 10.2 It is concluded that the works are appropriate in respect of the historical appearance of the building and the area it is situated in, They conform to the requirements of PP5 and it is therefore considered that planning consent should be granted.
