Whalley QE2 Playing Field M.U.G.A. , Youth Shelter, and Green Gym Proposals

May 2013

These proposals should be read in conjunction with our drawing Community Building WQE2 M01

The project is for 3 related installations aimed particularly at young people in the 8 - 25 age group, and also to benefit adults and seniors, to create opportunities for recreation, informal games activities and training, physical exercise, and social activities.

The project is located on an unused area of the existing Whalley QE2 Playing Field site. This is a level and drained green field area located near to the main entrance to the Playing fields adjacent to existing football pitches, cricket ground, and tennis courts, with open access to the public.

The whole Playing Field site has been in use for over 30 years for football, and over 100 years for cricket and tennis.

Planning permission for the new facilities is being sought

1. Multi Use Games Area M.U.G.A.

The proposals indicate a 39 x 19m Multi use games area with high goal and basketball ends and low side fencing for ball rebound and informal spectator areas, including a perimeter 1.5m tarmac footpath, and will be located adjacent to the existing main football pitch

This facility will encourage informal sports and more regular training activities for young people and others, in a publicly accessible and open location close to the other sporting, exercise, and recreational facilities

The playing surface proposed is for a Polymeric Type 4 epdm (rubber) resilient surface particularly suitable for football and basketball as well as allowing for other sports such as volley ball, netball, and other games. It is anticipated that this playing surface will have a limited maintenance requirement and an initial life of 15 years

Floodlights are also proposed to ensure that the MUGA can be used as year round facility, with motion and dusk sensors, and a timer

320130539P

2. Youth Shelter

The proposals indicate an open sided covered youth shelter seating up to 15 people with a hard surface flooring finish located between the playing field access track and path, and adjacent to the proposed MUGA pitch

The shelter will encourage informal social meeting space for young people, in an area that will be open and accessible with lighting from the MUGA providing extended use in winter months when in use. It will also be used by people waiting to play on the MUGA when busy and also have other informal uses by the public using the playing fields site as a whole.

The design illustrated is a custom timber structure design that we have prepared and installed in another location successfully, which will match and complement the MUGA design materials.

3. Green Gym Exercise area

320130539P

The proposals indicate an 8 station outdoor exercise area located on a grassed area adjacent to the proposed MUGA pitch

This equipment will encourage informal and more regular exercise activities for young people, adults, and seniors, in a form that is increasingly popular and inclusive, by allowing open and accessible installations close to other sporting and recreational facilities

The stations are planned to be situated in a defined area allowing users to move from one piece of equipment to the other

The grass area surrounding the stations will be additionally treated with polymer ground reinforcement.

FRE1129 - CLASSIC Pitch 19x39 m

Product Description

FREEGAME is designed to explore the benefits of sports and socialising. It's always open for games as well as for making friends, personality building and learning the rules of social life. It's a place for physical activities that encourage adolescents to lead active lifestyles. With facilities and all-round visibility that allow the users to feel safe, FREEGAME creates true 'living space' for all age groups. The broad entrance of the pitches provides accessibility for all and therefore inclusion. Adolescents with disabilities can access the activities to be part of the game or just relax and watch the play. Meet and move.

Product Information

Category:	Multisport pitches
Product line:	FREEGAME
Age group:	3+
Installation:	4 person(s) 225 hour(s)
Weight:	4100 kg.
Total height:	370 cm.
Colors:	

Technical information

Fall height:	0 cm.
Safety zone area:	0 m ²
Concrete required:	4.9 m ³
Foundation amount:	62
Available for surface mount:	No
Standard installation depth:	50 cm.

Footing
