Subject: Planning Application. Little Dudland Farm (Wood Farm), Rimington.

Dear Jane

You asked for comments on the proposed conversion of farm buildings into several residential dwellings at Little Dudland Farm. It is clear that FP19 runs right through the property and joins FP13 on the east side of the property. The planning application does not mention diverting FP 19. which is obviously needed in such a conversion. The obvious route for a diversion is to the south side of the property, which we would probably support, if put in to the required standards.

Regards Ian Nicol
