**Subject:** Land at East of Chipping Lane - Planning Application

Daniela

Please see attached the education response in respect of the application at Land East of Chipping Lane.

As discussed on the telephone, the grid reference used in this application is different to that used in the pre-application (which was a more central part of the site).

The grid reference used in this application has resulted in an additional school being taken into consideration, thus reducing the education requirement.

I must stress that as this is part of a larger scheme and more widely one of four large scale developments in the area, the need for primary school site's needs to be considered across all of these developments (as per my previous email).

Please do not hesitate to contact me should you require any further information.

Kind regards

Maxine.
